The Cambrian Governing Board desires to provide a comprehensive, research-based curriculum that motivates every student to succeed. The district's educational program shall provide students with opportunities to attain the skills, knowledge, and abilities they need to be successful in school and develop to their full potential.

Strategies for improving the educational program shall take into consideration the needs of individual students and significant student groups. Students who are failing or at risk of failing to meet academic standards shall be provided with alternative programs and/or supplemental assistance designed to raise achievement.

Inasmuch as parents/guardians are critical partners in their children's education, parents/guardians shall be provided with opportunities to be meaningfully involved both in support of their children's education program at school and with learning at home.

The Board shall:

1. Establish standards of student achievement for core subjects at each grade level that are aligned with the district's vision for student learning, the specific needs and strengths of the students, the expectations of parents/guardians and the community, and available resources
2. Establish graduation requirements
3. Ensure that a process is in place, involving teachers, administrators, students, and parents/guardians, for the development and review of the district's curriculum
4. Adopt the district curriculum and courses of study to be offered
5. Adopt textbooks and other instructional materials
6. Support the professional staff's implementation of the curriculum by providing consistent policy direction, allocating resources based on educational program priorities, ensuring that collective bargaining agreements do not constrain the district's ability to achieve curricular goals, recognizing staff accomplishments, and including reasonable annual goals related to student learning in the Superintendent evaluation process
7. Provide a continuing program of professional development to keep instructional staff, administrators, and Board members updated about current issues and research pertaining to curriculum, instructional strategies, and student assessment
8. Review and evaluate the educational program on the basis of state and federal accountability measures, disaggregated student achievement data, and other indicators and ensure that evaluation results are used to improve programs, curriculum, and/or instructional practices as necessary to enhance student achievement
9. Communicate clear information about district instructional goals, programs, and progress in student achievement to the community and media

The Superintendent or designee shall:

1. Review research related to curriculum issues
2. Select and/or develop curricula for recommendation to the Board in accordance with the district's curriculum development and review process
3. Ensure the articulation of the curriculum between grade levels and with postsecondary education and the workplace
4. Determine the general methods of instruction to be used
5. Assign instructors and schedule classes for all curricular offerings
6. Recommend instructional materials to the Board and direct the purchase of approved materials and equipment

7. Evaluate and report to the Board on student achievement as demonstrated through testing and other types of appraisal, and recommend necessary changes in curriculum, programs, and instruction as indicated by student performance data

Comparability in Instruction

The district shall provide comparable educational opportunities for all students. Instruction in the core curriculum shall be in no way diminished when students receive supplementary services funded by special governmental programs. Services funded by any categorical program shall supplement, not supplant, the district-provided core curriculum and any services which may be provided by other categorical programs.

Policy 6011: Academic Standards

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board shall adopt high standards for student achievement which challenge all students to reach their full potential and specify what students are expected to know and to be able to do at each grade level and in each area of study. These standards shall reflect the knowledge and skills needed for students to be adequately prepared for postsecondary education, employment, and responsible citizenship.

The Superintendent or designee shall provide the Board with recommended standards using a process that involves teachers, school site and district administrators, students, parents/guardians, representatives from business/industry and postsecondary institutions, and/or community members. They shall ensure the proper articulation of standards between grade levels and the alignment of the standards with the district's vision and goals, graduation requirements, college entrance requirements, and other desired student outcomes. They also shall ensure that the standards are easily understandable and measurable.

District content standards for English language arts, English language development, mathematics, science, health education, history-social science, physical education, visual and performing arts, world languages, career technical education, and preschool education shall meet or exceed statewide model content standards adopted by the State Board of Education or the State Superintendent of Public Instruction as applicable.

District curriculum, instruction, student assessments, and evaluations of the instructional program shall be aligned with district content standards. In accordance with Education Code 44662, standards of expected student achievement also shall be used in evaluating teacher performance.

Teachers and school administrators shall receive ongoing professional development to inform them of changes in the standards and to build their capacity to implement effective standards-based instructional methodologies.

The Superintendent or designee shall annually communicate the applicable standards to students and their parents/guardians to inform them of the expectations for student learning at their grade level.

Staff shall continually assess students' progress toward meeting the standards, report each student's progress to the student and their parents/guardians, and offer remedial assistance in accordance with Board policy and administrative regulation.

The Superintendent or designee shall ensure that district standards are regularly reviewed and updated as necessary. At a minimum, district standards shall be reviewed whenever applicable statewide standards are revised and in response to changing student needs.

Policy 6020: Parent Involvement

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board recognizes that parents/guardians are their children's first and most influential teachers and that sustained parent/guardian involvement in the education of their children contributes greatly to student achievement and a positive school environment. The Superintendent or designee shall work with parents/guardians and family members to jointly develop and agree upon policy and strategies to meaningfully involve parents/guardians and family members in district and school activities at all grade levels; advisory, decision-making, and advocacy roles; and activities to support learning at home.

The district's Board policy and administrative regulation containing parent/guardian and family engagement strategies shall be incorporated into the district's LCAP in accordance with 20 USC 6312. (20 USC 6318)

In order to respect each student's individual right to freedom of religious practice, religious indoctrination is forbidden in public schools. The Superintendent or designee shall ensure that instruction about religion does not promote or denigrate the beliefs or customs of any particular religion or sect, nor that a preference be shown for one religious viewpoint over another. Students may express their beliefs about religion in their homework, artwork, and other class work if the expression is germane to the assignment. Such work shall be judged by ordinary academic standards, relevance, and other legitimate pedagogical objectives.

While teaching about religious holidays is a permissible part of the educational program, celebrating religious holidays is not allowed in the district. School-sponsored programs shall not be, nor have the effect of being, religiously oriented or a religious celebration. School and classroom decorations may express seasonal themes that are not religious in nature. Classroom methods in instruction about religion shall not include religious role-playing activities or simulated religious devotional acts.

Music, art, literature or drama programs having religious themes are permitted as part of the curriculum for school-sponsored activities and programs if presented in an objective manner and as a traditional part of cultural and religious heritage.

Regulation 6142.7: Physical Education And Activity

Status: DRAFT

Original Adopted Date: Pending

Definitions

Physical education is a sequential educational program that teaches students to understand and participate in regular physical activity that assists in developing and maintaining physical fitness throughout their lifetime, understand and improve their motor skills, enjoy using their skills and knowledge to establish a healthy lifestyle, and understand how their bodies work.

Physical activity is bodily movement that is produced by the contraction of skeletal muscle and that substantially increases energy expenditure, including exercise, sport, dance, and other movement forms.

Moderate physical activity is any activity which generally requires sustained, rhythmic movements and refers to a level of effort a healthy individual might expend while, for example, walking briskly, dancing, swimming, or bicycling on level terrain. A person should feel some exertion but should be able to carry on a conversation comfortably during the activity.

Vigorous physical activity is any activity which generally requires sustained, rhythmic movements and refers to a level of effort a healthy individual might expend while, for example, jogging, participating in high-impact aerobic dancing, swimming continuous laps, or bicycling uphill. Vigorous physical activity may be intense enough to result in a significant increase in heart and respiration rate.

Instructional Time

Instruction in physical education shall be provided for at least the following minimum period of time: (Education Code 51210, 51222, 51223)

1. For students in grades 1-6, 200 minutes each 10 school days, exclusive of recess and the lunch period

3. For students in grades 7-8 attending a middle school or junior high school, 400 minutes each 10 school days

If the instructional minute requirement cannot be met during any 10-day period due to inclement weather, a school assembly, field trip, student assessment, or other circumstance, the school shall make up those minutes on another day in order to satisfy the instructional minute requirement.

The Superintendent or designee shall determine a method to document compliance with the required number of instructional minutes. Such documentation may include, but not be limited to, a master schedule, bell schedule, weekly schedule for each teacher providing physical education instruction, district calendar, teacher roster, or log for staff or students to record the number of physical education minutes completed.

Any complaint alleging noncompliance with the instructional minute requirement may be filed in accordance with the district's procedures in AR 1312.3 - Uniform Complaint Procedures. A complainant not satisfied with the district's decision may appeal the decision to the California Department of Education (CDE). If the district or CDE finds merit in a complaint, the district shall provide a remedy to all affected students and parents/guardians. (Education Code 51210, 51222, 51223; 5 CCR 4600-4670)

The Board shall adopt academic standards for history-social science which meet or exceed state content standards and describe the knowledge and skills students are expected to possess at each grade level.

The Superintendent or designee shall develop and submit to the Board for approval a comprehensive, sequential curriculum aligned with the district standards and consistent with the state's curriculum framework for history-social science. The curriculum shall be designed to develop students' core knowledge in history and social science and their skills in chronological and spatial thinking, research, and historical interpretation. History-social science instruction shall also include an explicit focus on developing students' literacy in reading, writing, speaking, listening, and other language skills.

The Board shall adopt standards-aligned instructional materials for history-social science in accordance with applicable law, Board policy, and administrative regulation. In addition, teachers are encouraged to supplement the curriculum by using biographies, original documents, diaries, letters, legends, speeches, other narrative artifacts, and literature from and about the period being studied.

Personal testimony from persons who can provide first-hand accounts of significant historical events is encouraged and may be provided through oral histories, videos, or other multimedia formats. If oral history is used for instruction related to the role of Americans in World War II or the Vietnam War, such testimony shall exemplify the personal sacrifice and courage of the wide range of ordinary citizens who were called upon to participate in the war, provide views and comments concerning reasons for participating in the war, and provide commentary on the aftermath of the war in Eastern Europe and the former Soviet Union. (Education Code 51221.3, 51221.4)

The Superintendent or designee shall regularly evaluate and report to the Board regarding the implementation and effectiveness of the history-social science curriculum at each grade level, including, but not limited to, the extent to which the program is aligned with state standards, any applicable student assessment results, and feedback from students, parents/guardians, and staff regarding the program.

Policy 6144: Controversial Issues

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board recognizes that the district's educational program may sometimes include instruction related to controversial issues that may arouse strong reactions based on personal values and beliefs, political philosophy, culture, religion, or other influences. Instruction concerning such topics shall be relevant to the adopted course of study and curricular goals and should be designed to develop students' critical thinking skills, ability to discriminate between fact and opinion, respect for others, and understanding and tolerance of diverse points of view.

The Board expects administrators and teachers to exercise professional judgment when deciding whether or not a particular issue is suitable for study or discussion. They shall consult with the Superintendent or designee as necessary to determine the appropriateness of the subject matter, guest speakers, and/or related instructional materials or resources.

When providing instruction related to a controversial issue, the following guidelines shall apply:

1. The topic shall be suitable to the age and maturity of the students.
2. Instruction shall be presented in a balanced manner, addressing all sides of the issue without bias or prejudice and without promoting any particular point of view.
3. In the classroom, teachers act on behalf of the district and are expected to follow the adopted curriculum. In leading or guiding class discussions about issues that may be controversial, a teacher may not advocate their personal opinion or viewpoint. When necessary, the Superintendent or designee may instruct teachers to refrain from sharing personal views in the classroom on controversial topics.
4. Students shall be assured of their right to form and express an opinion without jeopardizing their grades or being subject to discrimination, retaliation, or discipline, provided the viewpoint does not constitute harassment, threats, intimidation, or bullying or is otherwise unlawful.
5. Students shall be informed of conduct expected during such instruction and the importance of being courteous and respectful of the opinions of others.
6. Adequate factual information shall be provided to help students objectively analyze and evaluate the issue and draw their own conclusions.
7. The instruction shall not reflect adversely upon persons because of their race, ethnicity, national origin, sex, sexual orientation, gender identity or expression, disability, religion, or any other basis prohibited by law.
8. The subject matter of the instruction shall not otherwise be prohibited by state or federal law.

When a guest speaker is invited to make a presentation related to a controversial issue, the Superintendent or designee shall notify them of this policy and the expectations and goals regarding the instruction. If the guest speaker is presenting only one point of view on an issue, the teacher shall be responsible for ensuring that students also receive information on opposing viewpoints.

When required by law, such as in regards to comprehensive sexual health and HIV prevention education, parents/guardians shall be notified prior to instruction that they may request in writing that their child be excused from the instruction. Students whose parents/guardians decline such instruction may be offered an alternative activity of similar educational value.

A student or parent/guardian with concerns regarding instruction about controversial issues may communicate directly with the teacher or principal and/or use appropriate district complaint procedures.

Policy 6145.5: Student Organizations And Equal Access

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board believes that student groups or clubs reinforce the instructional program, give students experience in civics and government, and provide social and recreational activities. Student groups also serve to honor outstanding student achievement and enhance school spirit and students' sense of belonging. Prior to meeting on school grounds, all student groups shall be authorized by the principal or designee in accordance with Board policy and administrative regulation.

The Board encourages students to pursue interests and clubs which may not directly relate to the district's curriculum and, to that end, has created a limited open forum.

All student-initiated groups shall be given equal access to meet on school premises during noninstructional time without regard to their religious, political, philosophical, or other speech content. The Board shall ensure that: (20 USC 4071, 4072)

1. The meeting shall be voluntary and student-initiated.
2. There shall be no sponsorship of the meeting by the school or staff. The term sponsorship means that school staff are promoting, leading, or participating in a meeting. The assignment of a teacher, administrator, or other school employee to a meeting for custodial purposes shall not constitute sponsorship of the meeting.
3. Employees of the school shall be present at religious meetings only in a nonparticipatory capacity.
4. The meeting shall not materially and substantially interfere with the orderly conduct of educational activities within the school.
5. Nonschool persons shall not direct, conduct, control, or regularly attend activities of student groups.

All student clubs or groups shall have equal access to the school media to announce meetings, including the public address system, the school newspaper, bulletin boards, and school web site. However, the principal or designee may issue a disclaimer that such activities are not school-sponsored.

All noncurriculum-related student groups shall be given equal access to meeting space, school equipment, and supplies.

No school shall deny equal access or a fair opportunity to meet, or otherwise discriminate against, any group officially affiliated with the Boy Scouts of America, or with any other youth group listed as a patriotic society in Title 36 of the United States Code, for reasons based on the membership or leadership criteria or oath of allegiance to God and country. (20 USC 7905)

Regulation 6145.5: Student Organizations And Equal Access

Status: DRAFT

Original Adopted Date: Pending

Because the district has established a limited open forum, the principal or designee shall not deny any student-initiated school group access to school facilities during noninstructional time on the basis of religious, political, philosophical, or any other content of speech to be addressed at such meetings. (20 USC 4071)

Such meetings shall not interfere with regular school activities. The Superintendent or designee shall identify the noninstructional time period(s) set aside for meetings of student groups either before or after actual classroom instruction times.

Meetings held within the limited open forum shall entail no expenditure of public funds beyond the incidental cost of providing the meeting space. (20 USC 4071)

Students shall leave the meeting place in a clean, orderly, and secure condition after their meetings. The Superintendent or designee may deny the use of facilities to any group that they believe will materially disrupt the school program or threaten the health and safety of students and staff. (20 USC 4071)

6. Any special equipment to be used
7. A description of the qualifications for membership, if any
8. If a curriculum-related group, a statement of the relation of the club to the curriculum and/or instructional program

The principal or designee may establish school rules governing the meetings of curriculum-related groups, such as attendance or grade requirements. Such rules may vary depending on the group, such as whether or not academic credit is given for participation in the group.

Role of Staff Adviser

For any curriculum-related student group, the staff adviser shall provide guidance and teaching to students to ensure that the group's activities are aligned to the district's goals and objectives and shall provide supervision and leadership of the group. The principal shall have final authority in determining the assignment and role of the staff adviser.

For noncurriculum-related student groups, a staff adviser may be assigned voluntarily to observe meetings for purposes of maintaining order and protecting student safety. Staff advisers and other school employees shall not promote, lead, or participate in the meetings. (20 USC 4071, 4072)

The principal shall schedule assemblies and special events so as to maximize the effectiveness of instructional time and to satisfy the requirements of law and negotiated agreements.

During the assembly, students shall show respect to all performers and speakers. Students who disrupt the program shall lose the privilege of attending the assembly and may be subject to disciplinary action.

The district shall accept for credit full or partial coursework satisfactorily completed by students while attending a public school, a juvenile court school or nonpublic nonsectarian school or agency. (Education Code 48645.5)

Pending evaluation of the transferring student's academic performance, the student shall be placed at the grade level reached prior to enrollment in the district. Regulation 6146.3: Reciprocity Of Academic Credit

Status: DRAFT

Original Adopted Date: Pending

Definitions

An "accredited" school is one that has received accreditation by the Western Association of Schools and Colleges (WASC) or other statewide or regional commissions or, in the case of a school outside California, by the equivalent governmental or other regional accrediting agency in that jurisdiction.

Transfers from Accredited Schools

Students transferring into the district from an accredited school shall receive full academic credit for previously completed courses when the sending district verifies that the student has satisfactorily completed those courses.

Transfers from Non-Accredited Schools

When a student transfers from any non-accredited private, public, alternative, home or charter school, academic credit shall be subject to approval by the principal or designee at the enrolling school. Credits transferred from these schools shall be fully accepted when there is evidence that the course work completed is equivalent to similar courses offered in this district.

The principal or designee at the enrolling school shall be responsible for determining which of the student's credits are equivalent to district requirements. Guidelines for determining equivalency shall be developed by representative certificated staff familiar with the district's academic standards and graduation requirements.

Students in grades K through 8 who transfer into the district without proof of having met the grade level proficiency standards in reading, mathematics and writing must take the appropriate standardized tests of these basic skills to facilitate proper placement.

In determining equivalency, the principal and/or designated certificated staff representative may consider one or more of the following:

1. A review of the description of academic content and time requirements of the course work completed by the student compared to academic content and time requirements at the enrolling school
2. An examination of the student's portfolio of work, papers, completed projects, graded tests or other documents demonstrating the student's level of skill and knowledge
3. An opportunity for the student to demonstrate skill by their performance on appropriate course-challenging examinations, comprehensive final examinations and/or other culminating exercises used at the enrolling school
4. Verification by teacher observation, once the student has been placed in a course, that the student has reached a level of preparation consistent with their placement in that course

Appeals/Due Process

If a student's parent/guardian disagrees with the school site staff's judgment on grade-level placement, course placement and/or equivalency of academic credit, the parent/guardian may appeal to the Superintendent or designee.

Within 10 working days of notification of placement or credit determination, the parent/guardian may request, in writing, a conference with the Superintendent or designee to review the school site staff's decision.

The Superintendent or designee shall schedule a conference within 10 working days of the parent/guardian's request. This meeting may include the principal or designee, representatives of the school's certificated staff, and the student's parents/guardian. It shall be the parent/guardian's responsibility to present evidence that the facts do not support the school staff's decision on the student's placement and/or transferability of prior credits.

The Superintendent or designee's decision shall be final.

Policy 6161.1: Selection And Evaluation Of Instructional Materials

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board desires that district instructional materials, as a whole, present a broad spectrum of knowledge and viewpoints, accurately reflect and value society's diversity, stimulate thought, the exploration of ideas and intellectual exchanges, and enhance instructors' ability to educate all students through the use of multiple teaching strategies and technologies. The Board shall adopt instructional materials based on a determination that such materials are an effective learning resource to help students achieve grade-level competency and that the materials meet criteria specified in law. Textbooks, technology-based materials, and other educational materials shall be aligned with academic content standards and the district's curriculum to ensure that they effectively support the district's adopted courses of study.

The Board shall select instructional materials for use in grades K-8 that have been approved by the State Board of Education (SBE) or that have, during the district's review process, been determined to be aligned with the state academic content standards adopted by SBE, which includes instructional materials for mathematics and English language arts that are aligned to Common Core State Standards. (Education Code 60200, 60210)

In selecting or adopting instructional materials, the Board shall consider the recommendation of the Superintendent or designee and/or an advisory committee established to review the materials.

The degree to which every student has sufficient access to standards-aligned instructional materials shall be included in the district's local control and accountability plan. (Education Code 52060)

Sufficiency of Instructional Materials and Public Hearing

The Board shall annually conduct one or more public hearings on the sufficiency of the district's instructional materials, including textbooks, technology-based materials, other educational materials, and tests. The hearing shall be held on or before the end of the eighth week from the first day students attend school for that year. (Education Code 60119)

The Board encourages participation by parents/guardians, teachers, interested community members, and bargaining unit leaders at the hearing. Ten days prior to the hearing, the Superintendent or designee shall post a notice in three public places within the district containing the time, place, and purpose of the hearing. The hearing shall not take place during or immediately following school hours. (Education Code 60119)

1. Mathematics
2. Science
3. History-social science
4. English language arts, including the English language development component of an adopted program
5. World language
6. Health

In making these determinations, the Board shall consider whether each student has sufficient textbooks or other instructional materials to use in class and to take home. This does not require that each student have two sets of materials. However, materials shall not be considered sufficient if they are photocopied sheets from only a portion of a textbook or instructional materials copied to address a shortage. (Education Code 60119)

If materials are in a digital format, they shall be considered sufficient as long as each student, at a minimum, has and can access the same materials in the class and to take home as all other students in the same class or course in the district, and has the ability to use and access them at home. (Education Code 60119)

If the Board determines that there are insufficient textbooks or other instructional materials, the Board shall, by resolution, provide information to classroom teachers and to the public setting forth, for each school in which an insufficiency exists, the percentage of students who lack sufficient standards-aligned textbooks or instructional materials in each subject area and the reasons that each student does not have sufficient textbooks and/or instructional materials. The Board shall submit a copy of the resolution to the County Superintendent of Schools no later than three business days after the hearing. The Board shall take any action to ensure that each student has sufficient materials within two months of the beginning of the school year in which the determination is made. (Education Code 60119)

In addition, if the County Superintendent, in accordance with Education Code 1240, makes the district aware of a school that does not have sufficient textbooks or instructional materials, the district shall take any action to ensure that each student has sufficient materials within two months of the beginning of the school year.

Prohibition Against Refusal to Approve or Prohibit the Use of Specified Instructional Materials

Researchers shall respect the privacy rights of students, including their right to refrain from participation in research projects in accordance with law, Board policy and administrative regulation.

The Superintendent or designee may authorize research projects within the district by outside groups or persons when such research is aligned with district goals and objectives and is likely to benefit the district without disrupting the school program.

The Superintendent or designee shall ensure that parents/guardians receive prior notification of any surveys or evaluations that collect personal student information and that consent is obtained in accordance with law.

Policy 6163.1: Library Media Centers

Status: DRAFT

Original Adopted Date: Pending

The Governing Board recognizes that school libraries support the educational program by providing access to a variety of informational and supplemental resources that can inspire a love of reading, stimulate thought, the exploration of ideas and intellectual exchanges, and contribute to the academic achievement of all students. The Board desires that school libraries be stocked with up-to-date books, reference materials, and electronic resources that promote literacy, support academic standards, contain a broad spectrum of knowledge and viewpoints, accurately reflect and value society's diversity, and prepare students to become lifelong learners.

The Superintendent or designee may, in consultation with teacher librarians, classroom teachers, administrators, parents/guardians, and students as appropriate, develop and regularly update a plan for school libraries that describes the district's goals for school libraries and the distribution of funds to school sites to support libraries. As appropriate, the plan may also address staffing, facilities, selection and evaluation of materials, the development and maintenance of classroom libraries, prevention of loss or damage of library materials, prioritization of needs, and other related matters. The Superintendent or designee shall ensure that the library plan is aligned with the district's local control and accountability plan and other district and school plans.

Staffing

To staff school libraries, the district may employ one or more teacher librarians who possess appropriate credentials issued by the Commission on Teacher Credentialing. (Education Code 18120, 44868; 5 CCR 80024.6, 80053)

Hours of Operation

School libraries shall be open for use by students and teachers during the school day. (Education Code 18103)

With the approval of the Board, a school library may be open at other hours outside the school day, including evenings and Saturdays. Any library open to serve students during evening and Saturday hours shall be under the

supervision of a certificated employee who consents to the assignment. (Education Code 18103)

Selection and Evaluation of School Library Materials

Library materials shall include print and electronic resources that align with the curriculum and are accessible to students with varying cognitive and/or language needs.

Library materials shall be selected and evaluated through a process that invites recommendations from administrators, teachers, other staff, parents/guardians, and students as appropriate.

The use of any book or other resource in a school library shall not be rejected or prohibited by the Board or district on the basis that it includes a study of the role and contributions of any individual or group consistent with the requirements of Education Code 51204.5 and 60040, unless such study would violate Education Code 51501 or 60044. (Education Code 243)

Library materials shall be continually evaluated in relation to evolving curricula, new formats of materials, new instructional methods, and the needs of students and teachers. Materials that contain outdated subject matter or are no longer appropriate shall be removed.

All gifts and donations of school library materials shall be subject to the same criteria as materials selected for purchase by the district.

Complaints regarding the appropriateness of library materials shall be addressed in accordance with Board Policy 1312.2 - Complaints Concerning Instructional Materials and Board Policy 1312.3 - Uniform Complaint Procedures, as applicable.

Fees

Students shall be allowed to borrow school library materials at no charge for use in the library and classrooms as well as out of school. (5 CCR 16042)

Students shall be encouraged to return library materials in a timely manner, but no charge shall be assessed for the late return of materials.

Library Instruction

Teacher librarians and/or classroom teachers shall provide library instruction to support the development of students' information literacy skills. Such instruction shall be aligned with the state academic standards for library instruction and shall prepare students to:

1. Access information by applying knowledge of the organization of libraries, print materials, digital media, and other sources
2. Evaluate and analyze information to determine appropriateness in addressing the scope of inquiry
3. Organize, synthesize, create, and communicate information
4. Integrate information literacy skills into all areas of learning and pursue information independently to become

life-long learners

Teacher librarians also may provide support to teachers, administrators, and other staff by identifying instructional materials that will aid in the development of curriculum and instructional activities and by providing information about effective and ethical uses of school library services and equipment.

Program Evaluation

The Superintendent or designee shall annually assess and report to the Board regarding the condition and use of school libraries. The assessment shall evaluate, at a minimum:

5. Any special programs offered at the school to encourage reading and/or library use
6. The adequacy of the facility space and equipment designated for the school library
7. The source(s) and adequacy of funding for school libraries
8. Knowledge by principals, teachers, and library personnel of the process to follow when a library material(s) is challenged

The district shall, on or before August 31 each year, report to the California Department of Education on the condition of its school libraries for the preceding year ending June 30. (Education Code 18122)

Policy 6163.4: Student Use Of Technology

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board intends that technological resources provided by the district be used in a safe and responsible manner in support of the instructional program and for the advancement of student learning. All students using these resources shall receive instruction in their proper and appropriate use.

Teachers, administrators, and/or library media specialists are expected to review the technological resources and online sites that will be used in the classroom or assigned to students in order to ensure that they are appropriate for the intended purpose and the age of the students.

The Superintendent or designee shall notify students and parents/guardians about authorized uses of district technology, user obligations and responsibilities, and consequences for unauthorized use and/or unlawful activities in accordance with this Board policy and the district's Acceptable Use Agreement.

District technology includes, but is not limited to, computers, the district's computer network including servers and wireless computer networking technology (wi-fi), the Internet, email, USB drives, wireless access points (routers), tablet computers, smartphones and smart devices, telephones, cellular telephones, personal digital assistants, pagers, MP3 players, wearable technology, any wireless communication device including emergency radios, and/or future technological innovations, whether accessed on or off site or through district-owned or personally owned equipment or devices.

Before a student is authorized to use district technology, the student and their parent/guardian shall sign and return the Acceptable Use Agreement. In that agreement, the parent/guardian shall agree not to hold the district or any district staff responsible for the failure of any technology protection measures or user mistakes or negligence and shall agree to indemnify and hold harmless the district and district staff for any damages or costs incurred.

The district reserves the right to monitor student use of technology within the jurisdiction of the district without advance notice or consent. Students shall be informed that their use of district technology, including, but not limited to, computer files, email, text messages, instant messaging, and other electronic communications, is not private and may be accessed by the district for the purpose of ensuring proper use. Students have no reasonable expectation of privacy in use of the district technology. Students' personally owned devices shall not be searched except in cases where there is a reasonable suspicion, based on specific and objective facts, that the search will uncover evidence of a violation of law, district policy, or school rules.

The Superintendent or designee may gather and maintain information pertaining directly to school safety or student safety from the social media activity of any district student in accordance with Education Code 49073.6 and BP/AR 5125 - Student Records.

Whenever a student is found to have violated Board policy or the district's Acceptable Use Agreement, the principal or designee may cancel or limit a student's user privileges or increase supervision of the student's use of the district's equipment and other technological resources, as appropriate. Inappropriate use also may result in disciplinary action and/or legal action in accordance with law and Board policy.

The Superintendent or designee, with input from students and appropriate staff, shall regularly review and update procedures to enhance the safety and security of students using district technology and to help ensure that the district adapts to changing technologies and circumstances.

Internet Safety

The Superintendent or designee shall ensure that all district computers with Internet access have a technology protection measure that protects against access to visual depictions that are obscene, child pornography, or harmful to minors and that the operation of such measures is enforced. (20 USC 7131; 47 USC 254; 47 CFR 54.520)

To reinforce these measures, the Superintendent or designee shall implement rules and procedures designed to restrict students' access to harmful or inappropriate matter on the Internet and to ensure that students do not engage in unauthorized or unlawful online activities.

Harmful matter includes matter, taken as a whole, which to the average person, applying contemporary statewide standards, appeals to the prurient interest and is matter which depicts or describes, in a patently offensive way,

sexual conduct and which lacks serious literary, artistic, political, or scientific value for minors. (Penal Code 313)

The district's Acceptable Use Agreement shall establish expectations for appropriate student conduct when using the Internet or other forms of electronic communication, including, but not limited to, prohibitions against:

1. Accessing, posting, submitting, publishing, or displaying harmful or inappropriate matter that is threatening, obscene, disruptive, or sexually explicit, or that could be construed as harassment or disparagement of others based on their race/ethnicity, national origin, sex, gender, sexual orientation, age, disability, religion, or political beliefs
2. Intentionally uploading, downloading, or creating computer viruses and/or maliciously attempting to harm or destroy district equipment or materials or manipulate the data of any other user, including so-called "hacking"
3. Distributing personal identification information, including the name, address, telephone number, Social Security number, or other personally identifiable information, of another student, staff member, or other person with the intent to threaten, intimidate, harass, or ridicule that person

The Superintendent or designee shall provide age-appropriate instruction regarding safe and appropriate behavior on social networking sites, chat rooms, and other Internet services. Such instruction shall include, but not be limited to, the dangers of posting one's own personal identification information online, misrepresentation by online predators, how to report inappropriate or offensive content or threats, behaviors that constitute cyberbullying, and how to respond when subjected to cyberbullying.

Policy 6164.41: Children With Disabilities Enrolled By Their Parents In Private School

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board recognizes its obligations under state and federal law to locate, identify, evaluate, and provide equitable services to children voluntarily enrolled by their parents/guardians in private schools located within the district.

The Superintendent or designee shall ensure that activities to locate, identify, and evaluate children with disabilities enrolled by their parents/guardians in private schools within the district are comparable to activities undertaken for individuals with disabilities aged three to 22 in public schools within the district. (Education Code 56171; 34 CFR 300.131)

The Superintendent or designee shall develop a budget for the provision of services to children with disabilities enrolled by their parents/guardians in private school based on the proportionate share of federal funds received and the number of eligible children, including the possibility of mid-year enrollees, and the types of services to be provided.

Regulation 6164.41: Children With Disabilities Enrolled By Their Parents In Private School

Status: DRAFT

Original Adopted Date: Pending

Definitions

Parentally-placed private school children with disabilities means children with disabilities who are voluntarily enrolled by their parents/guardians in a private school or facility within district boundaries, including children who are attending a private school or facility within district boundaries but who reside in another district or state. (34 CFR 300.130, 300.131)

Private school or facility means a private full-time day school, including a religious school, located within district boundaries, that has filed an affidavit with the California Department of Education pursuant to Education Code 33190 and is registered in the California Private School Directory.

Consultation with Private School Representatives

The Superintendent or designee shall consult with all private school representatives and representatives of parents/guardians of parentally-placed private school children with disabilities during the design and development of equitable services for the children. In order to ensure a meaningful and timely consultation, the consultation shall include: (Education Code 56301; 20 USC 1412(a)(10)(A)(iii); 34 CFR 300.134)

1. The child find process and how parentally-placed private school children suspected of having a disability can participate equitably
2. The manner in which parents/guardians, teachers, and private school officials will be informed of the child find process
3. The determination of the proportionate share of federal funds available to serve parentally-placed private school children with disabilities and how this share is calculated
4. How the consultation process among district staff, private school officials, and representatives of parents of parentally-placed private school children with disabilities will operate throughout the school year to ensure that identified children can meaningfully participate in equitable services
5. The provision of equitable special education and related services including how, when, and by whom such services will be provided including a discussion about the types of services, alternate service delivery mechanisms, how services will be apportioned if funds are insufficient to serve all of the identified children, and how and when those decisions will be made
6. In the event that the district and private school disagree on the provision of or the types of services, how the district will provide the private school officials with a written explanation of the reasons that the district chose to not provide the services

When meaningful and timely consultation has occurred, the district shall obtain a written affirmation signed by the representatives of participating private schools. If the private school representatives do not provide the affirmation within a reasonable period of time, the district shall forward documentation of the consultation process to the California Department of Education. (Education Code 56172; 20 USC 1412; 34 CFR 300.135)

After the consultation has occurred, the district shall ensure an annual count of the number of parentally-placed children with disabilities attending private schools located within the district. This count shall be conducted between October 1 and December 1 each year and shall be used to determine the amount the district must spend on providing equitable services to the children in the subsequent fiscal year. (34 CFR 300.133)

Provision of Services

A child with a disability parentally-placed in a private school has no individual right to receive some or all of the special education and related services that would have been received if enrolled in public school. Such a child may receive a different amount of services than students with disabilities in public schools. (34 CFR 300.137, 300.138)

The district shall evaluate all identified parentally-placed private school children with disabilities for purposes of

considering them for equitable services. This evaluation shall be conducted in accordance with the timelines and procedures for evaluating public school students with disabilities pursuant to 34 CFR 300.300-300.311 and as specified in BP/AR 6164.4 - Identification and Evaluation of Individuals for Special Education, including obtaining parent/guardian consent and providing the parent/guardian with a copy of the procedural safeguards notice. (34 CFR 300.131, 300.504)

If the child resides in the district and is eligible for an individualized education program (IEP), the district shall make a free appropriate public education (FAPE) available to the child. However, the district is not required to develop an IEP if the parent/guardian makes clear the intention to keep the child enrolled in private school. In such situations, the district shall obtain written certification confirming the parent/guardian's intention to keep the child enrolled in private school, including the fact that the parent/guardian is not interested in the development of an IEP or the district's offer of FAPE. If the parent/guardian does not provide confirmation in writing, the district shall obtain oral confirmation of the parent/guardian's intention and confirm the conversation in writing.

If the child resides in a different district, then this district and the district of residence shall work together to ensure that the parent/guardian receives an offer of FAPE in accordance with law.

The district shall develop and implement for each identified child with a disability enrolled by their parents/guardians in a private school within the district's boundaries an individual services plan (ISP) that describes the equitable services that the district will provide, as determined by the district after the consultation process with private school representatives. (34 CFR 300.138)

The ISP shall be developed, reviewed, and revised consistent with 20 USC 1414. A representative of the private school shall be invited to attend each ISP team meeting. If the representative cannot attend the meeting, the district shall use other methods to ensure the representative's participation, including individual or conference calls. (34 CFR 300.137, 300.138)

The district may provide services on the private school premises, including a religious school, to the extent consistent with law. The services shall be provided by personnel meeting the same standards as personnel providing services in the public school except that private elementary school and secondary school teachers who are providing equitable services to parentally-placed private school children with disabilities do not have to meet the special education teacher qualification requirements specified in 34 CFR 300.156. The personnel shall either be district employees or contractors of the district. (34 CFR 300.138, 300.139)

The district shall offer transportation to the child if services are provided on a site other than the child's school and the ISP team determines that transportation is necessary for the child to benefit from or participate in the services provided in the ISP. Depending on the timing of the services, the district shall provide transportation from the child's school or home to the service site and from the service site to the child's school or home. (34 CFR 300.139)

The district may place equipment and supplies in a private school for the period of time necessary to provide the services pursuant to the ISP. All such equipment shall remain the property of the district and must be able to be removed without remodeling or causing damage to the private school. The district shall remove the equipment when no longer required by the child, when the child no longer attends the private school, or when removal is necessary to prevent unauthorized use. (34 CFR 300.144)

1. A parent/guardian, teacher, other school employee, student success team, or community agency may refer a student to the principal or 504 Coordinator for identification as a student with a disability under Section 504.
2. Upon receipt of any such referral, the principal, 504 Coordinator, or other qualified individual with expertise in the area of the student's suspected disability shall consider the referral and determine whether an evaluation is appropriate. This determination shall be based on a review of the student's school records, including those in academic and nonacademic areas of the school program; consultation with the student's teacher(s), other professionals, and the parent/guardian, as appropriate; and analysis of the student's needs.

If it is determined that an evaluation is unnecessary, the principal or 504 Coordinator shall inform the parents/guardians in writing of this decision and of the procedural safeguards available, as described in the "Procedural Safeguards" section below.

3. If the student needs or is believed to need special education or related services under Section 504, the district shall conduct an evaluation of the student prior to his/her initial placement. (34 CFR 104.35)

Prior to conducting an initial evaluation of a student for eligibility under Section 504, the district shall obtain written parent/guardian consent.

The district's evaluation procedures shall ensure that the tests and other evaluation materials: (34 CFR 104.35)

- a. Have been validated and are administered by trained personnel in conformance with the instruction provided by the test publishers
- b. Are tailored to assess specific areas of educational need and are not merely designed to provide a single general intelligence quotient
- c. Reflect the student's aptitude or achievement or whatever else the tests purport to measure rather than his/her impaired sensory, manual, or speaking skills, except where those skills are the factors that the tests purport to measure

Section 504 Services Plan and Placement

Services and placement decisions for students with disabilities shall be determined as follows:

1. A multidisciplinary 504 team shall be convened to review the evaluation data in order to make placement decisions.

The 504 team shall consist of a group of persons knowledgeable about the student, the meaning of the evaluation data, and the placement options. (34 CFR 104.35)

In interpreting evaluation data and making placement decisions, the team shall draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background, and adaptive behavior. The team shall also ensure that information obtained from all such sources is documented and carefully considered and that the placement decision is made in conformity with 34 CFR 104.34. (34 CFR 104.35)

2. If, upon evaluation, a student is determined to be eligible for services under Section 504, the team shall meet to develop a written 504 services plan which shall specify the types of regular or special education services, accommodations, and supplementary aids and services necessary to ensure that the student receives FAPE.

The parents/guardians shall be invited to participate in the meeting and shall be given an opportunity to examine all relevant records.

3. If the 504 team determines that no services are necessary for the student, the record of the team's meeting

shall reflect whether or not the student has been identified as a person with a disability under Section 504 and shall state the basis for the determination that no special services are presently needed. The student's parent/guardian shall be informed in writing of his/her rights and procedural safeguards, as described in the "Procedural Safeguards" section below.

4. The student shall be placed in the regular educational environment, unless the district can demonstrate that the education of the student in the regular environment with the use of supplementary aids and services cannot be achieved satisfactorily. The student shall be educated with those who are not disabled to the maximum extent appropriate to his/her individual needs. (34 CFR 104.34)
5. The district shall complete the identification, evaluation, and placement process within a reasonable time frame. The district shall adhere to this time frame regardless of any extended school breaks or times that school is otherwise not in session.
6. A copy of the student's Section 504 services plan shall be kept in his/her student record. The student's teacher(s) and any other staff who provide services to the student shall be informed of the plan's requirements.

If a student transfers to another school within the district, the principal or designee at the school from which the student is transferring shall ensure that the principal or designee at the new school receives a copy of the plan prior to the student's enrollment in the new school.

Review and Reevaluation

The 504 team shall monitor the progress of the student and, at least annually, shall review the effectiveness of the student's Section 504 services plan to determine whether the services are appropriate and necessary and whether the student's needs are being met as adequately as the needs of students without disabilities are met. In addition, each student with a disability under Section 504 shall be reevaluated at least once every three years.

A reevaluation of the student's needs shall be conducted before any subsequent significant change in placement. (34 CFR 104.35)

Procedural Safeguards

The Superintendent or designee shall notify the parents/guardians of students with disabilities of all actions and decisions by the district regarding the identification, evaluation, or educational placement of their children. He/she also shall notify the parents/guardians of all the procedural safeguards available to them if they disagree with the district's action or decision, including an opportunity to examine all relevant records and an impartial hearing in which they shall have the right to participate. (34 CFR 104.36)

If a parent/guardian disagrees with any district action or decision regarding the identification, evaluation, or educational placement of his/her child under Section 504, he/she may request a Section 504 due process hearing within 30 days of that action or decision.

Prior to requesting a Section 504 due process hearing, the parent/guardian may, at his/her discretion, but within 30 days of the district's action or decision, request an administrative review of the action or decision. The Coordinator shall designate an appropriate administrator to meet with the parent/guardian to attempt to resolve the issue and the administrative review shall be held within 14 days of receiving the parent/guardian's request. If the parent/guardian is not satisfied with the resolution of the issue, or if the parent/guardian did not request an administrative review, he/she may request a Section 504 due process hearing.

A Section 504 due process hearing shall be conducted in accordance with the following procedures:

1. The parent/guardian shall submit a written request to the Coordinator within 30 days of receiving the district's decision or, if an administrative review is held, within 14 days of the completion of the review. The request for the due process hearing shall include:

- a. The specific nature of the decision with which he/she disagrees
 - b. The specific relief he/she seeks
 - c. Any other information he/she believes is pertinent to resolving the disagreement
2. Within 30 days of receiving the parent/guardian's request, the Superintendent or designee and 504 Coordinator shall select an impartial hearing officer. This 30-day deadline may be extended for good cause or by mutual agreement of the parties.
 3. Within 45 days of the selection of the hearing officer, the Section 504 due process hearing shall be conducted and a written decision mailed to all parties. This 45-day deadline may be extended for good cause or by mutual agreement of the parties.
 4. The parties to the hearing shall be afforded the right to:
 - a. Be accompanied and advised by legal counsel and by individuals with special knowledge or training related to the problems of students with disabilities under Section 504
 - b. Present written and oral evidence
 - c. Question and cross-examine witnesses
 - d. Receive written findings by the hearing officer stating the decision and explaining the reasons for the decision

If desired, either party may seek a review of the hearing officer's decision by a federal court of competent jurisdiction.

Notifications

The Superintendent or designee shall ensure that the district has taken appropriate steps to notify students and parents/guardians of the district's duty under Section 504. (34 CFR 104.32)

Policy 6170.1: Transitional Kindergarten

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board desires to offer a high-quality transitional kindergarten (TK) program for eligible children who do not yet meet the minimum age criterion for kindergarten. The TK program shall assist students in developing the academic, social, and emotional skills needed to succeed in kindergarten and beyond.

The district's TK program shall be the first year of a two-year kindergarten program. (Education Code 48000)

The Board encourages ongoing collaboration among district preschool staff, other preschool providers, elementary teachers, administrators, and parents/guardians in the development, implementation, and evaluation of the district's TK program.

Eligibility

The district's TK program shall admit children as follows: (Education Code 48000):

1. For the 2024-25 school year, and in each school year thereafter, children who turn four by September 1

A child's eligibility for TK enrollment shall not impact family eligibility for a preschool or childcare program, including, but not limited to, a Head Start program, a childcare center serving children through an alternative payment program, a general childcare and development program, a California State Preschool Program (CSPP), a migrant childcare and development program, childcare and development services for children with special needs, or a program serving children through a CalWORKs Stage 1, Stage 2, or Stage 3 program. (Education Code 48000)

Parents/guardians of eligible children shall be notified of the availability of the TK program and of the age, residency, immunization, and any other enrollment requirements. Enrollment in the TK program shall be voluntary.

On a case-by-case basis, a child whose fifth birthday is on or before September 1 may be admitted into the district's TK program upon request of a child's parents/guardians, if the Superintendent or designee, determines that it is in the child's best interest.

At any time during the school year, the district may admit into the TK program a child whose fifth birthday is after the date specified for admittance for the applicable year as described above, provided that upon the recommendation of the Superintendent or designee, the Board determines that enrollment in a TK program is in the child's best interest and the child's parents/guardians approve. Prior to such enrollment, the child's parents/guardians shall be provided information regarding the advantages and disadvantages and any other explanatory information about the effect of early admittance. (Education Code 48000)

Additionally, the district may enroll an early enrollment child in TK whose fourth birthday is between June 3 and September 1, inclusive, preceding the school year during which they are enrolled in TK. The Superintendent or designee shall maintain any classroom that includes an early enrollment child with a classroom enrollment that does not exceed 20 students and an adult-to-student ratio of at least one adult to every 10 students. Additionally, if an early enrollment child is enrolled in TK, the district shall concurrently offer enrollment to the child in the district's CSPP, subject to available space. (Education Code 48000.15)

Curriculum and Instruction

The district's TK program shall be based on a modified kindergarten curriculum that is age and developmentally appropriate. (Education Code 48000)

The program shall be aligned with the preschool learning foundations and preschool curriculum frameworks developed by the California Department of Education (CDE). It shall be designed to facilitate students' development in essential knowledge and skills related to language and literacy, mathematics, physical development, health, visual and performing arts, science, history-social science, English language development, and social-emotional development.

The Board shall establish the length of the school day in the district's TK program, which shall be at least three hours but no more than four hours long, including recess but excluding noon intermission, except for TK students enrolled in expanded learning opportunity programs provided by the district pursuant to Education Code 46120. If the district

has adopted an extended-day kindergarten, the length of the school day for the TK program may be different than the length of the school day for the kindergarten program either at the same or different school sites. The Superintendent or designee shall annually report to CDE as to whether the district's TK programs are offered full day, part day, or both. (Education Code 8973, 37202, 46111, 46115, 46117, 48003)

The Superintendent or designee shall collaborate with parents/guardians and relevant community groups, in accordance with the plan developed for how all children in the attendance area of the district will have access to full-day learning programs the year before kindergarten that meet the needs of parents/guardians, including through partnerships with the district's expanded learning offerings, the After School Education and Safety Program, CSPP, Head Start programs, and other community-based early learning and care programs.

TK students may be placed in the same classrooms as kindergarten students when necessary, provided that the instructional program is differentiated to meet student needs.

TK students may be commingled in the same classroom with four-year-old students from a CSPP program as long as the commingled program meets all of the requirements of each program as well as the following requirements: (Education Code 8207, 48000):

1. The classroom does not include students enrolled in TK for a second year or students enrolled in a regular kindergarten
2. An early childhood environment rating scale, as specified in 5 CCR 18281, is completed for the classroom
3. All children enrolled for 10 or more hours per week are evaluated using the Desired Results Developmental Profile, as specified in 5 CCR 18272
4. The classroom is taught by a teacher that holds a credential issued by the Commission on Teacher Credentialing (CTC) in accordance with Education Code 44065 and 44256
5. The classroom is in compliance with the adult-child ratio specified in Education Code 8241
6. Contractors of the district report the services, revenues, and expenditures for children in the preschool program in accordance with 5 CCR 18068 except for contractors of the TK program

The district shall maintain an average TK class enrollment of not more than 20 students for each school site, not including students who are continuously enrolled in and meet the minimum day requirement for independent study for more than 14 school days in a school year. (Education Code 48000)

Staffing

The Superintendent or designee shall ensure that teachers assigned to teach in TK classes possess a teaching credential or permit from CTC that authorizes such instruction.

A credentialed teacher who is first assigned to a TK class after July 1, 2015, shall, by August 1, 2025, have at least 24 units in early childhood education and/or child development, comparable professional experience in a preschool setting, and/or a child development teacher permit or an early childhood specialist credential issued by CTC. (Education Code 48000)

The Superintendent or designee may provide professional development as needed to ensure that TK teachers are knowledgeable about the standards and effective instructional methods for teaching young children, including, but not limited to, developing competencies in serving inclusive classrooms and dual language learners.

The district shall maintain an average of at least one adult for every 12 students for TK classrooms and, contingent upon an appropriation of funding, maintain an average of at least one adult for every 10 students commencing with the 2025-26 school year. (Education Code 48000)

Continuation to Kindergarten

Students who complete the TK program shall be eligible to continue in kindergarten the following school year. Parents/guardians of such students shall not be required to submit a signed Kindergarten Continuance Form for kindergarten attendance.

However, whenever children who would otherwise be age-eligible for kindergarten are enrolled in TK, the Superintendent or designee shall obtain a Kindergarten Continuance Form signed by the parent/guardian near the end of the TK year consenting to the child's enrollment in kindergarten the following year.

A student shall not attend more than two years in kindergarten or a combination of TK and kindergarten. (Education Code 46300)

Assessment

The Superintendent or designee may develop or identify appropriate formal and/or informal assessments of TK students' development and progress. The Superintendent or designee shall monitor and regularly report to the Board regarding program implementation, the progress of students in meeting related academic standards, and student preparedness for future education.

Policy 6171: Title I Programs

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board desires to provide a high-quality education that enables all students to meet challenging state academic standards. In schools with a large number or percentage of economically disadvantaged families, the district shall use Title I funds to provide services that strengthen the academic program and provide support to students at risk of failing to achieve academic standards.

Title I funds shall be used to supplement, not supplant, funds available from state and local sources for the education of students participating in Title I programs. (20 USC 6314, 6321)

Descriptions of how the district will address the required components of the Title I local educational agency plan, as specified in 20 USC 6312, shall be included within the district's control and accountability plan (LCAP), the LCAP Federal Addendum, or another document. School-level strategies shall be aligned with the district's plan and be tailored to the specific needs of the students at the school.

In addition, the district and each school receiving Title I funds shall develop a written parent/guardian and family engagement policy in accordance with 20 USC 6318.

Comparability of Services

In schools receiving Title I funds, state and local funds shall be used to provide services that, taken as a whole, are at least comparable to services in schools that are not receiving Title I funds or, if all district schools are receiving Title I funds, that are substantially comparable in each school. Comparability may be determined on a school-by-school basis or by grade span. (20 USC 6321)

To demonstrate comparability of services among district schools, the district shall:

1. Adopt and implement a districtwide salary schedule
2. Ensure equivalence in teachers, administrators, and other staff, as measured by either or both of the following:
 - a. The ratio of students to instructional staff at each Title I school within a grade span, which shall not exceed 110 percent of the average ratio for all non-Title I district schools within that grade span
 - b. Salary expenditures for instructional staff at each Title I school, which shall be no less than 90 percent of the average salary expenditure across non-Title I district schools.
3. Ensure equivalence in the provision of curriculum materials and instructional supplies, by determining whether the per-student expenditure of state and local funds for curriculum materials and instructional supplies in Title I schools is between 90 and 110 percent of the district wide average
4. Determine whether the amount of state and local funds allocated per student for each grade span is between 90 and 110 percent of the per student average for each grade span in non-Title I schools

In determining comparability, the district shall not include staff salary differentials for years of employment. The district also may exclude unpredictable changes in student enrollment or personnel assignments that occur after the beginning of the school year, state and local funds expended for language instruction educational programs, state and local funds expended for the excess costs of providing services to students with disabilities, and supplemental state or local funds expended in any school attendance area or school for programs that specifically meet the intent and purposes of Title I. (20 USC 6321)

The Superintendent or designee shall annually assess comparability in accordance with the above criteria and maintain records documenting the district's compliance. If any instances of noncomparability are identified, the Superintendent or designee shall promptly implement adjustments as needed to ensure comparability.

Participation of Private School Students

The district shall provide or contract to provide special educational services, instructional services (including evaluations to determine the progress being made in meeting students' academic needs), counseling, mentoring, one-

on-one tutoring, or other Title I benefits to eligible private school students residing in a participating school attendance area. Such services and benefits shall be provided on an equitable basis in comparison to services and other benefits for public school students. (20 USC 6320, 7881)

Program Evaluation

The Board shall regularly monitor the progress of economically disadvantaged and low-achieving students in Title I schools. During the annual evaluation of the district's progress toward achieving each goal identified in the LCAP or other planning document addressing 20 USC 6312, the Board shall review disaggregated data on academic achievement, school attendance, and other outcomes for such students and shall ensure that strategies are revised as necessary to support continuous improvement.

Regulation 6171: Title I Programs

Status: DRAFT

Original Adopted Date: Pending

Schoolwide Programs

A school may operate a Title I schoolwide program in order to upgrade the entire educational program of the school when at least 40 percent of the students in the school attendance area, or at least 40 percent of the students enrolled in the school, are from low-income families. (20 USC 6314; 34 CFR 200.25)

A school that does not meet these criteria may operate a Title I schoolwide program if it receives a waiver from the California Department of Education. (20 USC 6314)

Any school operating a schoolwide program shall develop a comprehensive plan with the involvement of parents/guardians, other members of the community to be served, and individuals who will carry out the plan, including teachers, principals, other school leaders, paraprofessionals present in the school, administrators (including administrators of other federal education programs), the district, tribes and tribal organizations present in the community, and, if appropriate, specialized instructional support personnel, technical assistance providers, school staff, secondary school students as applicable, and other individuals determined by the school. (20 USC 6314)

The schoolwide program plan shall be based on a comprehensive needs assessment of the entire school and shall be incorporated into a single plan for student achievement which also incorporates the plans required for other categorical programs included in the state's consolidated application. (Education Code 64001; 20 USC 6314)

The plan shall describe the strategies that the school will implement to address school needs, including a description of how such strategies will: (20 USC 6314)

1. Provide opportunities for all students, including economically disadvantaged students, ethnic significant student groups, students with disabilities, and English learners, to meet state academic standards
2. Use methods and instructional strategies that strengthen the school's academic program, increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education
3. Address the needs of all students in the school, but particularly the needs of those at risk of not meeting state academic standards, through activities which may include the following:
 - a. Counseling, school-based mental health programs, specialized instructional support services, mentoring services, and other strategies to improve students' skills outside the academic subject areas
 - b. Preparation for and awareness of opportunities for postsecondary education and the workforce, which may include career and technical education programs and broadening secondary school students' access to coursework to earn postsecondary credit while still in high school
 - c. Implementation of a schoolwide tiered model to prevent and address problem behavior, and early intervention services, coordinated with similar activities and services carried out under the Individuals with Disabilities Education Act
 - d. Professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data from academic assessments and to recruit and retain effective teachers, particularly in high-need subjects
 - e. Strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs

The plan shall also include a description of any applicable federal, state, and local programs that will be consolidated in the schoolwide program. (20 USC 6314; 34 CFR 200.27)

The plan and its implementation shall be regularly monitored and revised as necessary based on student needs to ensure that all students are provided opportunities to meet state academic standards. (20 USC 6314)

Targeted Assistance Programs

Any school that receives Title I funds but does not operate a schoolwide program shall use Title I funds to provide services to eligible students who are failing, or most at risk of failing, to meet state academic standards. Students shall be identified on the basis of multiple, educationally related, objective criteria, except that students in preschool through grade 2 shall be selected solely on the basis of criteria, including objective criteria, established by the district and supplemented by the school. (20 USC 6315)

Eligible students include those who are economically disadvantaged; students with disabilities; migrant students, including those who participated in a migrant education program pursuant to 20 USC 6391-6399 in the preceding two years; English learners; students who participated in a Head Start or state preschool program in the preceding two years; students in a local institution for neglected or delinquent children and youth or attending a community day program for such students; and students experiencing homelessness . (20 USC 6315)

Any targeted assistance program shall: (20 USC 6315)

1. Use program resources to help participating students meet state academic standards, which may include programs, activities, and academic courses necessary to provide a well-rounded education
2. Use methods and instructional strategies that strengthen the academic program, through activities which may include:
 - a. Expanded learning time, before- and after-school programs, and summer programs and opportunities
 - b. A schoolwide tiered model to prevent and address behavior problems, and early intervention services, coordinated with similar activities and services carried out under the Individuals with Disabilities Education Act
3. Coordinate with and support the regular education program, which may include services to assist preschool students in the transition to elementary school programs
4. Provide professional development to teachers, principals, other school leaders, paraprofessionals, and, if appropriate, specialized instructional support personnel and other school personnel who work with eligible students in Title I programs or in the regular education program. The professional development shall be provided using funds from Title I and, to the extent practicable, other sources.
5. Implement strategies to increase the involvement of parents/guardians of participating students
6. If appropriate and applicable, coordinate and integrate federal, state, and local services and programs, such as programs supported by the Elementary and Secondary Education Act, violence prevention programs, nutrition programs, housing programs, Head Start programs, adult education programs, career technical education programs, and comprehensive or targeted support and improvement activities under 20 USC 6311
7. Provide assurances to the Superintendent or designee that the program will:
 - a. Help provide an accelerated, high-quality curriculum
 - b. Minimize the removal of students from the regular classroom during regular school hours for instruction supported by Title I funds
 - c. On an ongoing basis, review the progress of participating students and revise the targeted assistance program, if necessary, to provide additional assistance to enable such students to meet state academic standards

Participation of Private School Students

Teachers and families of participating private school students shall have an opportunity to participate, on an equitable basis, in parent/guardian and family engagement activities and professional development pursuant to 20 USC 6318. (20 USC 6320, 7881)

Each year the Superintendent or designee shall contact officials of private schools with students who reside within district boundaries, regardless of whether the private school they attend is located within the district or whether or

not those officials have previously indicated any interest in program participation, and invite them to a meeting to discuss the intent of Title I and the roles of public and private school officials.

The Superintendent or designee shall consult with appropriate private school officials, in a meaningful and timely manner, during the design and development of the district's Title I programs, with the goal of reaching agreement on how to provide equitable and effective programs for eligible private school students. Such consultation shall occur before the district makes any decision that affects the opportunities of eligible private school students to participate in Title I programs and shall include consultation on issues such as the following: (20 USC 6320, 7881; 34 CFR 200.56)

1. How the needs of private school students will be identified
2. What services will be offered
3. How, where, and by whom the services will be provided
4. How the services will be academically assessed and how assessment results will be used to improve those services
5. The size and scope of the equitable services to be provided to eligible private school students, the proportion of funds to be allocated for such services, and how that proportion of funds is determined
6. The method or sources of data that are used to determine the number of students from low-income families in participating school attendance areas who attend private schools
7. How and when the district will make decisions about the delivery of services to such students, including a thorough consideration and analysis of the views of private school officials on the provision of services through a third-party provider
8. How, if the district disagrees with the views of private school officials on the provision of services through a third-party provider, the district will provide to private school officials a written analysis of the reasons that the district has chosen not to use a contractor
9. Whether the district will provide services directly or through a separate government agency, consortium, entity, or third-party contractor
10. Whether to provide services to eligible private school students by pooling funds or on a school-by-school basis
11. When services will be provided, including the approximate time of day
12. Whether to consolidate and use funds provided under Title I with other funds available for services to private school students

If the district disagrees with the views of private school officials with respect to any of the above issues, the district shall provide the officials, in writing, the reasons that the district disagrees. (20 USC 6320)

Meetings between district and private school officials shall continue throughout implementation and assessment of services. (20 USC 6320)

The district shall maintain, and shall provide to the CDE, a written affirmation signed by officials of each participating private school that consultation has occurred. The affirmation shall provide the option for private school officials to indicate their belief that timely and meaningful consultation has not occurred or that the program design is not equitable with respect to private school students. If private school officials do not provide the affirmation within a reasonable period of time, the district shall send documentation to the CDE demonstrating that the consultation has, or attempts at such consultation have, taken place. (20 USC 6320)

The Superintendent or designee shall also maintain copies of program descriptions, notices, funding allocations, and other communications and records pertaining to the provision of services to private school students.

Policy 6173: Education For Homeless Children

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board believes that the identification of students experiencing homelessness is critical to improving the educational outcomes of such students and ensuring that students experiencing homelessness have access to the same free and appropriate public education provided to other students within the district. The district shall provide students experiencing homelessness with access to education and other services necessary for such students to meet the same challenging academic standards as other students.

When there are at least 15 students experiencing homelessness in the district or a district school, the district's local control and accountability plan (LCAP) shall include goals and specific actions to improve student achievement and other outcomes of students experiencing homelessness. (Education Code 52052, 52060, 52064)

The Superintendent or designee shall review district policies at least once every three years and recommend updates to ensure removal of any barriers to the education of homeless students and unaccompanied youth. Any such review shall address identification, enrollment, and retention of such students, including those barriers that are due to absences or outstanding fees or fines. (Education Code 48851.3, 42 USC 11432)

The Superintendent or designee shall designate an appropriate staff person to serve as a liaison for homeless children and youths. The district liaison for homeless students shall fulfill the duties specified in 42 USC 11432 to assist in identifying and supporting students experiencing homelessness to succeed in school, and as specified in Education Code 48851.3 related to trainings for district staff providing assistance to students experiencing homelessness.

The Superintendent or designee shall ensure that each district school identifies all students experiencing homelessness and unaccompanied youths enrolled at the school. (Education Code 48851)

To ensure easy identification of students experiencing homelessness, the Superintendent or designee shall annually provide and administer a housing questionnaire developed by the California Department of Education (CDE) to all parents/guardians of students and all unaccompanied youths. (Education Code 48851)

If the primary language of a student's parent/guardian or an unaccompanied youth is not English, either the housing questionnaire shall be made available in the primary language of the student's parent/guardian or the unaccompanied youth pursuant to Education Code 48985, or an appropriate translation of the housing questionnaire shall be provided upon request of a student's parent/guardian or an unaccompanied youth. (Education Code 48851)

The Superintendent or designee shall report to CDE the number of students experiencing homelessness, including unaccompanied youths, enrolled in the district as identified from the housing questionnaire described above. (Education Code 48851)

In addition, the Superintendent or designee shall ensure that the district liaison's contact information and other information on homelessness, including, but not limited to, information regarding the educational rights and resources available to persons experiencing homelessness, are posted on the district and school web sites as specified in the accompanying administrative regulation. (Education Code 48852.6)

The Superintendent or designee shall ensure that placement decisions for students experiencing homelessness are based on the student's best interest as defined in law and administrative regulation.

Each student experiencing homelessness shall be provided services that are comparable to services offered to other students in the school, including, but not limited to, transportation, educational programs for which the student meets the eligibility criteria (such as federal Title I services or similar state or local programs, programs for students with disabilities, and educational programs for English learners), career and technical education programs, programs for gifted and talented students, and school nutrition programs. (Education Code 48850; 42 USC 11432)

Students experiencing homelessness shall not be segregated into a separate school or program based on their status as homeless and shall not be stigmatized in any way. However, the Superintendent or designee may separate students experiencing homelessness on school grounds as necessary for short periods of time for health and safety emergencies or to provide temporary, special, and supplementary services to meet their unique needs. (42 USC 11432, 11433)

The Superintendent or designee shall ensure that information and/or materials for students experiencing homelessness are provided in a manner and form understandable to the student's parents/guardians and to unaccompanied youths.

Information about the living situation of a student experiencing homelessness shall be considered part of a student's educational record, subject to the Family Educational Rights and Privacy Act, shall not be deemed to be directory information as defined in 20 USC 1232g, and shall not be released without written consent. (42 USC 11432)

The Superintendent or designee shall coordinate with other agencies and entities to ensure that students experiencing homelessness are promptly identified, ensure that students experiencing homelessness have access to and are in reasonable proximity to available education and related support services, and raise the awareness of school personnel and service providers of the effects of short-term stays in a shelter and other challenges associated with homelessness. Toward these ends, the Superintendent or designee shall collaborate with local social services agencies, other agencies or entities providing services to students experiencing homelessness, and, if applicable, transitional housing facilities. In addition, the Superintendent or designee shall coordinate transportation, transfer of school records, and other interdistrict activities with other local educational agencies. As necessary, the Superintendent or designee shall coordinate, within the district and with other involved local educational agencies, services for students experiencing homelessness and services for students with disabilities. (42 USC 11432)

At least annually, the district liaison and other appropriate staff shall participate in professional development and other technical assistance activities to assist them in identifying and meeting the needs of students experiencing homelessness. Such professional development and technical assistance shall include, but are not limited to, training on the district's homeless education program policies, definitions of terms related to homelessness, recognition of signs that students are experiencing or are at risk of experiencing homelessness, the steps that should be taken once a potentially homeless student is identified, and how to connect students experiencing homelessness with appropriate housing and service providers. (Education Code 48851.3, 48852.5; 42 USC 11432)

At least annually, the Superintendent or designee shall report to the Board on the identification of and outcomes for students experiencing homelessness, which may include, but are not limited to, the housing questionnaire responses, school attendance, student achievement test results, promotion and retention rates by grade level, graduation rates, suspension/expulsion rates, and other outcomes related to any goals and specific actions identified in the LCAP. Based on the evaluation data, the district shall revise its strategies as needed to more effectively identify and support the education of students experiencing homelessness.

Annually, the Superintendent or designee shall report to CDE, in accordance with Education Code 51225.1, the number of students experiencing homelessness graduating from the fourth or fifth year of high school who, for the prior school year, graduated with an exemption from district-established graduation requirements that are in addition to statewide coursework requirements.

(Education Code 48852.7; 42 USC 11432)

Best interest means that, in making educational and school placement decisions for a student experiencing homelessness, consideration is given to, among other factors, educational stability, the opportunity to be educated in the least restrictive educational setting necessary to achieve academic progress, and the student's access to academic resources, services, and extracurricular and enrichment activities that are available to all district students. (Education Code 48850, 48853; 42 USC 11432)

7. Mediate enrollment disputes in accordance with law and the section "Resolving Enrollment Disputes" below
8. Fully inform parents/guardians of students experiencing homelessness and unaccompanied youth of all transportation services, including transportation to the school of origin, and assist them in accessing transportation to the school of choice
9. Offer annual training related to the district's homeless education program policies to school personnel who provide services to students experiencing homelessness, including principals and other school leaders, attendance officers, teachers, enrollment personnel, and specialized instructional support personnel, to ensure that such employees are informed of available training, professional development, and other support, and the services provided by the district liaison for homeless students
10. Ensure that unaccompanied youth are enrolled in school, have opportunities to meet the same challenging state academic standards established for other students, and are informed of their status as independent students under 20 USC 1087vv and that they may receive assistance from the district liaison to receive verification of their independent student status for purposes of applying for federal student aid pursuant to 20 USC 1090
11. Coordinate and collaborate with state coordinators and community and school personnel responsible for the provision of education and related services to students experiencing homelessness, including the collection and provision of comprehensive data to the state coordinator as required by law

When notified pursuant to Education Code 48915.5, the district liaison shall participate in an individualized education program (IEP) team meeting to make a manifestation determination regarding the behavior of a student with a disability.

The Superintendent or designee shall inform students experiencing homelessness, their parents/guardians, school personnel, service providers, and advocates working with homeless families of the duties of the district's liaison. The Superintendent or designee shall also provide the name and contact information of the district's liaison to the California Department of Education (CDE) for publishing on CDE's web site. (42 USC 11432)

Enrollment

The district shall make placement decisions for students experiencing homelessness based on the student's best interest. (Education Code 48850; 42 USC 11432)

In determining a student's best interest, a student experiencing homelessness shall, to the extent feasible, be placed in the school of origin, unless the student's parent/guardian or the unaccompanied youth requests otherwise. (Education Code 48852.7; 42 USC 11432)

When determining the best interest of any student experiencing homelessness, the district shall give priority to the request of the student's parent/guardian, or in the case of an unaccompanied youth, the request of the student. The student's educational stability and opportunity to be educated in the least restrictive educational setting necessary to achieve academic progress and other student-centered factors related to the student's best interest, including the impact of mobility on the student's achievement, education, health, and safety, shall also be considered. (Education Code 48850; 42 USC 11432)

Such factors may include, but are not limited to, the age of the student, the distance of the commute and the impact it may have on the student's education, personal safety issues, the student's need for special instruction, the length

of anticipated stay in the temporary shelter or other temporary location, likely area of future housing, school placement of siblings, and the time remaining in the school year.

However, placement decisions shall not be based on whether a student experiencing homelessness lives with the student's homeless parent/guardian or has been temporarily placed elsewhere. (42 USC 11432)

In the case of an unaccompanied youth, the district liaison shall assist in placement or enrollment decisions, give priority to the views of the student, and provide notice to the student of the right to appeal. (42 USC 11432)

Once a placement decision has been made, the principal or designee shall immediately enroll the student in the school of choice. The student shall be enrolled even if the student: (Education Code 48850, 48852.7; 42 USC 11432)

1. Has outstanding fees, fines, textbooks, or other items or monies due to the school last attended
2. Does not have clothing normally required by the school, such as school uniforms
3. Is unable to produce records normally required for enrollment, such as previous academic records, proof of residency, and records of immunization and other required health records
4. Has missed application or enrollment deadlines during any period of homelessness

The principal or designee shall immediately contact the school last attended by the student to obtain the relevant records. If the student needs to obtain immunizations or does not possess immunization or other required health records, the principal or designee shall immediately refer the parent/guardian to the district liaison for homeless students. The district liaison shall assist the parent/guardian, or the student if the student is an unaccompanied youth, in obtaining the necessary immunizations, screenings, or records for the student. (42 USC 11432)

If the student is placed at a school other than the school of origin or the school requested by the student's parent/guardian or the student, if an unaccompanied youth, the Superintendent or designee shall provide the parent/guardian or the unaccompanied youth with a written explanation of the reasons for the decision, including why placement in the student's school of origin or requested school is not in the student's best interest, along with a statement regarding the right to appeal the placement decision. The written explanation shall be in a manner and form understandable to such parent/guardian or unaccompanied youth. (42 USC 11432)

At the point of any change or subsequent change in the residence of a student experiencing homelessness, the student may continue attending the student's school of origin for the duration of the homelessness. (Education Code 48852.7; 42 USC 11432)

To ensure that the student experiencing homelessness has the benefit of matriculating with the student's peers in accordance with the established feeder patterns, the following shall apply: (Education Code 48852.7; 42 USC 11432)

1. If the student is transitioning between grade levels, the student shall be allowed to continue in the same attendance area

1. Inform the student's parents/guardians or unaccompanied youth that written and/or oral documentation to support their position may be provided

If a parent/guardian or unaccompanied youth disagrees with the district liaison's enrollment decision, the decision may be appealed to the Superintendent. The Superintendent shall make a determination within five working days.

If the parent/guardian chooses to appeal the district's placement decision, the district liaison shall forward all written documentation and related paperwork to the liaison for homeless students at the county office of education.

Pending final resolution of the dispute, including all available appeals, the student shall be immediately enrolled in the school in which enrollment is sought and shall be allowed to attend classes and participate fully in school activities. (42 USC 11432, 11434a)

Transportation

The district shall provide transportation for a student experiencing homelessness to and from the student's school of origin when the student is residing within the district and the parent/guardian, or the district liaison in the case of an unaccompanied youth, requests that such transportation be provided. If the student moves outside of district

boundaries, but continues to attend the student's school of origin within this district, the Superintendent or designee shall consult with the superintendent of the district in which the student is now residing to agree upon a method to apportion the responsibility and costs of the transportation. (42 USC 11432)

Any fees that the district charges for home-to-school transportation and other transportation as expressly provided by law shall be waived for students experiencing homelessness. (Education Code 39807.5)

The district shall not be obligated to provide transportation to students who continue attending their school of origin after they secure permanent housing, unless the formerly homeless student has an IEP that includes transportation as a necessary related service for the student. (Education Code 48852.7)

Transfer of Coursework and Credits

The district shall transfer the credits and grades from the transferring school's transcript onto an official district transcript in the same manner as described in Item #2, above. (Education Code 51225.2)

If the Principal or designee has knowledge that the transcript from the transferring school may not include certain credits or grades, the Principal or designee shall contact the prior school within two business days to request that the full or partial credits be issued, which shall then be issued and provided by the prior school within two business days of the request. (Education Code 51225.2)

The district shall accept and issue full credit for any coursework that the student has satisfactorily completed while attending another public school, a juvenile court school, a charter school, a school in a country other than the United States, or a nonpublic, nonsectarian school. (Education Code 51225.2)

If the entire course was completed, the district shall not require the student to retake the course. (Education Code 51225.2)

If the entire course was not completed at the previous school, the student shall be issued partial credit for the coursework completed and shall be required to take the uncompleted portion of the course. However, the district may require the student to retake the portion of the course completed if, in consultation with the holder of educational rights for the student, the district finds that the student is reasonably able to complete the requirements in time to graduate from high school. Whenever partial credit is issued to a student in any particular course, the student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. (Education Code 51225.2)

Partial credits shall be awarded on the basis of 0.5 credits for every seven class periods attended per subject. If the school is on a block schedule, each block schedule class period attended shall be equal to two regular class periods per subject. Partial credits and grades earned by a student shall be included on the student's official transcript within two business days of the district's notification of the student's transfer, as required under Education Code 49069.5.

Eligibility for Extracurricular Activities

A student experiencing homelessness who enrolls in any district school shall have access to extracurricular and enrichment activities that are available to all students in the school, including but not limited to, interscholastic sports administered by the California Interscholastic Federation. (Education Code 48850)

Notification, Complaints, and Posting Requirements

Information regarding the educational rights of students experiencing homelessness, as specified in Education Code 51225.1 and 51225.2, shall be included in the annual uniform complaint procedures notification distributed to students, parents/guardians, employees, and other interested parties pursuant to 5 CCR 4622. (Education Code 51225.1, 51225.2)

Policy 6173.1: Education For Foster Youth

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board recognizes that foster youth may face significant barriers to achieving academic success due to their family circumstances, disruption to their educational program, and their emotional, social, and other health needs that may be addressed with the provision of a safe, positive learning environment that is free from discrimination and harassment and that promotes students' self-esteem and academic achievement.

The Superintendent or designee shall provide foster youth with full access to the district's educational program and implement strategies necessary for the improvement of the academic achievement of foster youth as identified in the district's local control and accountability plan (LCAP). The Superintendent or designee shall also develop strategies to build a foster youth's feeling of connectedness with school, including, but not limited to, strategies that promote positive discipline and conflict resolution, the development of resiliency and interpersonal skills, and the involvement of foster parents, group home administrators, and/or other caretakers in school programs and activities.

The Superintendent or designee shall ensure that placement decisions for foster youth are based on the students' best interests as defined in law and as specified in the accompanying administrative regulation. To that end, the Superintendent or designee shall designate a staff person as the district liaison for foster youth to help facilitate the enrollment, placement, and transfer of foster youth.

The Superintendent or designee and district liaison shall ensure that all appropriate staff, including, but not limited to, each principal, school registrar, and attendance clerk, receive training on the enrollment, placement, and transfer of foster youth and other related rights.

To address the needs of foster youth and help ensure the maximum utilization of available funds, the Superintendent or designee shall collaborate with local agencies and officials including, but not limited to, the county placing agency, social services, probation officers, and juvenile court officers. The Superintendent or designee shall explore the feasibility of entering into agreements with these groups to coordinate services and protect the rights of foster youth.

At least annually and in accordance with the established timelines, the Superintendent or designee shall report to the Board on the outcomes for foster youth regarding the goals and specific actions identified in the LCAP, including, but not limited to, school attendance, student achievement test results, promotion and retention rates by grade level, graduation rates, and suspension/expulsion rates. As necessary, evaluation data shall be used to determine and recommend revisions to the LCAP for improving or increasing services for foster youth.

Annually, the Superintendent or designee shall report to the California Department of Education, in accordance with Education Code 51225.1, the number of foster youth graduating from the fourth or fifth year of high school who, for the prior school year, graduated with an exemption from district-established graduation requirements that are in addition to statewide coursework requirements.

Prior to making any recommendation to move a foster youth from the school of origin, the liaison shall provide the foster youth and the person holding the right to make educational decisions for the youth with a written explanation of the basis for the recommendation and how the recommendation serves the youth's best interests. (Education Code 48853.5)

Such transportation costs may be paid by either the child welfare agency or the district, or shared by both. (20 USC 6312)

The Superintendent or designee may, to the extent permitted by Board policy, waive course or program prerequisites, preconditions, and/or application deadlines when making decisions regarding placement of children of military families and their eligibility for extracurricular academic, athletic, and social activities. (Education Code 49701)

When a child of a military family transferring into the district has been identified as an individual with a disability pursuant to 20 USC 1400-1482, the Superintendent or designee shall provide comparable services based on the student's current IEP. In addition, when the child of a military family transferring into the district is eligible for services under Section 504 of the federal Rehabilitation Act, the Superintendent or designee shall make reasonable accommodations and modifications to address the needs of the student subject to the student's existing Section 504 plan. The district may authorize subsequent evaluations of the student to ensure appropriate placement. (Education Code 49701)

Transfer of Coursework and Credits

When a child of a military family transfers into a district school, the district shall accept and issue full credit for any coursework that the student has satisfactorily completed while attending another public school, a nonpublic, nonsectarian school or agency, or a juvenile court school and shall not require the student to retake the course. (Education Code 51225.2)

If the student did not complete the entire course, the student shall be issued partial credit for the coursework completed and shall be required to take only the portion of the course not completed at the previous school. However, the district may require the student to retake the portion of the course completed if, in consultation with the student's parent/guardian, the district finds that the student is reasonably able to complete the requirements in time to graduate from high school. Whenever partial credit is issued, the student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. (Education Code 51225.2)

Partial credits shall be awarded on the basis of 0.5 credits for every seven class periods attended per subject. If the school is on a block schedule, each block schedule class period attended shall be equal to two regular class periods per subject.

In no event shall the district prevent a child of a military family from taking or retaking a course to meet the eligibility requirements for admission to the California State University or the University of California. (Education Code 51225.2)

Absences

When a student's parent/guardian is an active duty member and is called to duty for, is on leave from, or is immediately returned from deployment to a combat zone or to combat support posting, the Superintendent or designee may grant additional excused absences to the student to visit with the parent/guardian. (Education Code 49701)

Notification and Complaints

Information regarding the educational rights of children of military families, as specified in Education Code 51225.1 and 51225.2, shall be included in the annual uniform complaint procedures notification distributed to students, parents/guardians, employees, and other interested parties pursuant to 5 CCR 4622. (Education Code 51225.1, 51225.2)

Any complaint alleging that the district has not complied with requirements regarding the education of children of military families, as specified in Education Code 51225.1 or 51225.2, may be filed in accordance with the district's procedures in AR 1312.3 - Uniform Complaint Procedures.

Policy 6174: Education For English Learners

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board intends to provide English learners with challenging curriculum and instruction that maximize the attainment of high levels of proficiency in English, advance multilingual capabilities, and facilitate student achievement in the district's regular course of study.

English learners shall be provided differentiated English language development instruction which is targeted to their English proficiency level. Such instruction shall be based on sound instructional theory, be aligned with state content standards, emphasize inquiry-based learning and critical thinking skills, and be integrated across all subject areas.

No middle or high school student who is an English learner shall be denied enrollment in any of the following: (Education Code 60811.8)

1. Courses in the core curriculum areas of reading/language arts, mathematics, science, and history/social science, courses required to meet state and local high school graduation requirements, or courses required for middle school grade promotion

However, an English learner who has been enrolled in a school in the United States for less than 12 months or is enrolled in a program designed to develop the basic English skills of newly arrived immigrant students may be denied participation in any such course, if the course of study provided to the student is designed to remedy academic deficits incurred during participation and reasonably calculated to enable the student to attain parity of participation in the standard instructional program within a reasonable length of time after the student enters the school system.

2. A full course load of courses specified in Item #1 above
3. Other courses that meet the "A-G" course requirements for college admission or are advanced courses such as honors or Advanced Placement courses, on the sole basis of the student's classification as an English learner

The district shall identify in its local control and accountability plan (LCAP) goals and specific actions and services to enhance student engagement, academic achievement, and other outcomes for English learners.

The Superintendent or designee shall encourage parent/guardian and community involvement in the development and evaluation of programs for English learners. The Superintendent or designee may also provide an English development literacy training program for parents/guardians and community members so that they may better support students' English language development.

Staff Qualifications and Training

The Superintendent or designee shall ensure that all staff employed to teach English learners possess the appropriate authorization from the Commission on Teacher Credentialing.

The district shall provide effective professional development to teachers (including teachers in classroom settings that are not the settings of language instruction educational programs), administrators, and other school or community-based organization personnel to improve the instruction and assessment of English learners and enhance staff's ability to understand and use curricula, assessment, and instructional strategies for English learners. Such professional development shall be of sufficient intensity and duration to produce a positive and lasting impact on teachers' performance in the classroom. (20 USC 6825)

Staff development shall also address the sociocultural needs of English learners and provide opportunities for teachers to engage in supportive, collaborative learning communities.

Identification and Assessment

The Superintendent or designee shall maintain procedures for the early identification of English learners and an assessment of their proficiency using the English Language Proficiency Assessments for California (ELPAC). To oversee test administration, the Superintendent or designee shall annually designate a district ELPAC coordinator and a site coordinator for each test site in accordance with 5 CCR 11518.40-11518.45.

Once identified as an English learner, a student shall be annually assessed for language proficiency until the student is reclassified based on criteria specified in the accompanying administrative regulation.

In addition, English learners' academic achievement in English language arts, mathematics, science, and any additional subject required by law shall be assessed using the California Assessment of Student Performance and Progress. As necessary, the test shall be administered with testing variations in accordance with 5 CCR 853. English learners who are in their first 12 months of attending a school in the United States shall be exempted from taking the English language arts assessment to the extent allowed by federal law. (Education Code 60603, 60640; 5 CCR 853)

Formative assessments may be utilized to analyze student performance and appropriately adapt teaching methodologies and instructions.

Language Acquisition Programs

The district shall offer research-based language acquisition programs that are designed to ensure English acquisition as rapidly and as effectively as possible and that provide instruction to students on the state-adopted academic content standards, including the English language development standards. (Education Code 306; 5 CCR 11300)

At a minimum, the district shall offer a structured English immersion program which includes designated and integrated English language development. In the structured English immersion program, nearly all of the classroom instruction shall be provided in English, but with the curriculum and presentation designed for students who are learning English. (Education Code 305-306; 5 CCR 11309)

For the purpose of determining the amount of instruction to be conducted in English in the structured English immersion program, "nearly all" means that all classroom instruction shall be conducted in English except for clarification, explanation, and support as needed.

In addition, language acquisition programs offered by the district may include, but are not limited to, the following: (Education Code 305-306)

1. A dual-language immersion program that provides integrated language learning and academic instruction for native speakers of English and native speakers of another language, with the goals of high academic achievement, first and second language proficiency, and cross-cultural understanding
2. A transitional or developmental program for English learners that provides literacy and academic instruction in English and a student's native language and that enables an English learner to achieve English proficiency and academic mastery of subject matter content and higher order thinking skills, including critical thinking, in order to meet state academic content standards

The district's language acquisition programs for grades K-3 shall comply with class size requirements specified in Education Code 42238.02. (Education Code 310)

In establishing the district's language acquisition programs, the Superintendent or designee shall consult with parents/guardians and the community during the LCAP development process. The Superintendent or designee shall also consult with administrators, teachers, and other personnel with appropriate authorizations and experience in establishing a language acquisition program. (Education Code 305)

At the beginning of each school year or upon a student's enrollment, parents/guardians shall be provided information on the types of language acquisition programs available to students enrolled in the district, including, but not limited to, a description of each program, the process to be followed in making a program selection, identification of any language to be taught in addition to English when the program includes instruction in another language, and the process to request establishment of a language acquisition program. (Education Code 310; 5 CCR 11310)

Whenever a student is identified as an English learner based on the results of the ELPAC, the student's parents/guardians may choose a language acquisition program that best suits their child. To the extent possible, any language acquisition program requested by the parents/guardians of 30 or more students at the school or by the parents/guardians of 20 or more students at any grade level shall be offered by the school. (Education Code 310; 5 CCR 11311)

Until July 1, 2029, the Superintendent or designee may, with Board approval, and as specified in BP 5117 - Interdistrict Attendance, enter into an instruction collaboration agreement (ICA) with another school district, county office of education, or charter school to offer the same or similar courses and coursework to students who have

been impacted by teacher shortages, disruptions, or cancellations, or teacher shortages to dual language immersion programs. (Education Code 48345)

Reclassification

When an English learner is determined based on state and district reclassification criteria to have acquired a reasonable level of English proficiency pursuant to Education Code 313 and 52164.6, or upon request by the student's parent/guardian, the student shall be transferred from a language acquisition program into an English language mainstream classroom.

Program Evaluation

To evaluate the effectiveness of the district's educational program for English learners, the Superintendent or designee shall report to the Board, at least annually, regarding:

1. Progress of English learners towards proficiency in English
2. The number and percentage of English learners reclassified as fluent English proficient
3. The number and percentage of English learners who are or are at risk of being classified as long-term English learners in accordance with Education Code 313.1
4. The achievement of English learners on standards-based tests in core curricular areas
5. For any language acquisition program that includes instruction in a language other than English, student achievement in the non-English language in accordance with 5 CCR 11309
6. Progress toward any other goals for English learners identified in the district's LCAP
7. A comparison of current data with data from at least the previous year in regard to Items #1-6 above
8. A comparison of data between the different language acquisition programs offered by the district

The Superintendent or designee shall also provide the Board with regular reports from any district or schoolwide English learner advisory committees.

Regulation 6174: Education For English Learners

Status: DRAFT

Original Adopted Date: Pending

Definitions

English learner means a student who is age 3-21 years, who is enrolled or is preparing to enroll in an elementary or secondary school, and whose difficulties in speaking, reading, writing, or understanding the English language may be sufficient to deny the student the ability to meet state academic standards, the ability to successfully achieve in classrooms where the language of instruction is English, or the opportunity to participate fully in society. An English learner may include a student who was not born in the United States or whose native language is a language other than English; a student who is Native American or Alaska Native, or a native resident of the outlying areas, who comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; or a student who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant. (Education Code 306; 20 USC 7801)

Designated English language development means instruction provided during a time set aside in the regular school day for focused instruction on the state-adopted English language development standards to assist English learners to develop critical English language skills necessary for academic content learning in English. (5 CCR 11300)

Integrated English language development means instruction in which the state-adopted English language development standards are used in tandem with the state-adopted academic content standards. Integrated English language development includes specially designed academic instruction in English. (5 CCR 11300)

Native speaker of English means a student who has learned and used English at home from early childhood and English has been the primary means of concept formation and communication. (Education Code 306)

Identification and Assessments

Upon enrollment in the district, each student's primary language shall be determined through the use of a home language survey. (Education Code 52164.1; 5 CCR 11307, 11518.5)

Any student who is identified as having a primary language other than English as determined by the home language survey, and who has not previously been identified as an English learner by a California public school or for whom there is no record of results from an administration of an English language proficiency test, shall be initially assessed for English proficiency using the English Language Proficiency Assessments for California (ELPAC). Prior to administering the ELPAC, the Superintendent or designee shall notify the student's parent/guardian in writing that the student will be administered the initial ELPAC. (Education Code 313, 52164.1; 5 CCR 11518.5)

Administration of the ELPAC, including the use of variations and accommodations in test administration when authorized, shall be conducted in accordance with test publisher instructions and 5 CCR 11518.5-11518.37.

Based on the initial assessment, the student shall be classified either as initially fluent in English proficient or as an English learner. The Superintendent or designee shall notify the student's parent/guardian, in writing, of the results of the ELPAC initial assessment within 30 calendar days after the student's date of initial enrollment, or, if administered prior to the student's initial date of enrollment, up to 60 calendar days prior to such enrollment, but not before July 1 of the school year of the student's initial enrollment. The notice shall indicate whether the student met the ELPAC initial assessment criterion for proficiency and include the district's contact information for use if the parent/guardian has questions or concerns regarding the student's classification. (5 CCR 11518.5)

Each year after a student is identified as an English learner and until the student is redesignated as English proficient, the summative assessment of the ELPAC shall be administered to the student during a four-month period after January 1 as determined by the California Department of Education. (Education Code 313)

The Superintendent or designee shall notify parents/guardians of their child's results on the summative assessment of the ELPAC within 30 calendar days following receipt of the results from the test contractor or, if the results are received from the test contractor after the last day of instruction for the school year, within 15 working days of the start of the next school year. (Education Code 52164.1; 5 CCR 11518.15)

The parent/guardian of a student participating in, or identified for participation in, a language instruction program

supported by federal Title I or Title III funds shall receive notification of the assessment of the student's English proficiency. Such notice shall be provided no later than 30 calendar days after the beginning of the school year or, if the student is identified for program participation during the school year, within two weeks of the student's placement in the program. The notice shall include all of the following: (Education Code 313.2, 440; 20 USC 6312)

1. The reason for the identification of the student as an English learner and the need for placement in a language acquisition program
2. The level of English proficiency, how the level was assessed, and the status of the student's academic achievement
3. A description of the language acquisition program in which the student is, or will be, participating, including a description of all of the following:
 - a. The methods of instruction used in the program and in other available programs, including how such programs differ in content, instructional goals, and the use of English and a native language in instruction
 - b. The manner in which the program will meet the educational strengths and needs of the student
 - c. The manner in which the program will help the student develop English proficiency and meet age-appropriate academic standards for grade promotion and graduation
 - d. The specific exit requirements for the program, the expected rate of transition from the program into classes not tailored for English learners, and the expected rate of graduation from secondary school if applicable
 - e. When the student has been identified for special education, the manner in which the program meets the requirements of the student's IEP
4. As applicable, the identification of a student as a long-term English learner or at risk of becoming a long-term English learner, as defined in Education Code 313.1, and the manner in which the program for English language development instruction will meet the educational strengths and needs of such students and help such students develop English proficiency and meet age-appropriate academic standards
5. Information about the parent/guardian's right to have the student immediately removed from a program upon the parent/guardian's request
6. Information regarding a parent/guardian's option to decline to enroll the student in the program or to choose another program or method of instruction, if available
7. Information designed to assist a parent/guardian in selecting among available programs, if more than one program or method is offered

Language Acquisition Programs

Whenever parents/guardians of enrolled students, and those enrolled for attendance in the next school year, request that the district establish a specific language acquisition program in accordance with Education Code 310, such requests shall be addressed through the following process: (5 CCR 11311)

1. The school shall make a written record of each request, including any request submitted verbally, that includes the date of the request, the names of the parent/guardian and student making the request, a general description of the request, and the student's grade level on the date of the request. As needed, the school shall assist the parent/guardian in clarifying the request. All requests shall be maintained for at least three years from the date of the request.
2. The school shall monitor requests on a regular basis and notify the Superintendent or designee when the parents/guardians of at least 30 students enrolled in the school, or at least 20 students in the same grade level, request the same or a substantially similar type of language acquisition program. If the requests are for a multilingual program model, the district shall consider requests from parents/guardians of students enrolled in the school who are native English speakers in determining whether this threshold is reached.
3. If the number of parents/guardians described in Item #2 is attained, the Superintendent or designee shall:

- a. Within 10 days of reaching the threshold, notify the parents/guardians of students attending the school, the school's teachers, administrators, and the district's English learner parent advisory committee and parent advisory committee, in writing, of the requests for a language acquisition program
- b. Identify costs and resources necessary to implement any new language acquisition program, including, but not limited to, certificated teachers with the appropriate authorizations, necessary instructional materials, pertinent professional development for the proposed program, and opportunities for parent/guardian and community engagement to support the proposed program goals
- c. Within 60 calendar days of reaching the threshold number of parents/guardians described in Item #2 above, determine whether it is possible to implement the requested language acquisition program and provide written notice of the determination to parents/guardians of students attending the school, the school's teachers, and administrators
- d. If a determination is made to implement the language acquisition program, create and publish a reasonable timeline of actions necessary to implement the program. If a determination is made that it is not possible to implement the program, provide a written explanation of the reason(s) the program cannot be provided.

The district shall notify parents/guardians at the beginning of each school year or upon the student's enrollment regarding the process to request a language acquisition program, including a dual-language immersion program, for their child. The notice shall also include the following: (5 CCR 11309, 11310)

1. A description of the programs provided, including structured English immersion
2. Identification of any language to be taught in addition to English when the program includes instruction in a language other than English
3. The manner in which the program is designed using evidence-based research and includes both designated and integrated English language development
4. The manner in which the district has allocated sufficient resources to effectively implement the program, including, but not limited to, certificated teachers with the appropriate authorizations, necessary instructional materials, pertinent professional development, and opportunities for parent/guardian and community engagement to support the program goals
5. The manner in which the program will, within a reasonable period of time, lead to language proficiency and achievement of the state-adopted content standards in English and, when the program includes instruction in another language, in that other language
6. The process to request establishment of a language acquisition program not offered at the school
7. For any dual-language immersion program offered, the specific languages to be taught. The notice also may include the program goals, methodology used, and evidence of the proposed program's effectiveness.

The district shall provide additional and appropriate educational services to English learners for the purposes of overcoming language barriers and academic deficits in other areas of the core curriculum. (5 CCR 11302)

Reclassification/Redesignation

English learners shall be reclassified as fluent English proficient when they are able to comprehend, speak, read, and write English well enough to receive instruction in an English language mainstream classroom and make academic progress at a level substantially equivalent to that of students of the same age or grade whose primary language is English and who are in the regular course of study. (Education Code 52164.6)

The criteria for determining whether an English learner shall be reclassified as fluent English proficient shall include, but not be limited to: (Education Code 313, 52164.6; 5 CCR 11303)

1. Assessment of English language proficiency using an objective assessment instrument, including, but not limited to, the ELPAC

2. Evaluation by the student's classroom teacher and any other certificated staff with direct responsibility for teaching or placement decisions related to the student, including, but not limited to, a review of the student's curriculum mastery and academic performance
3. Parent/guardian involvement, including:
 - a. Notice to parents/guardians of language reclassification and placement, including a description of the reclassification process and the parent/guardian's opportunity to participate
 - b. Encouragement of parent/guardian participation in the district's reclassification procedure, including seeking parent/guardian opinion and consultation during the reclassification process
 - c. Provision of an interpreter for the parent/guardian, when necessary
4. Comparison of student performance on an objective assessment of basic skills in English against an empirically established range of performance in basic skills, based on the performance of English proficient students of the same age, which demonstrates whether the student is sufficiently proficient in English to participate effectively in a curriculum designed for students of the same age whose native language is English

The student's language proficiency assessments, the participants in the reclassification process, and any decisions regarding reclassification shall be retained in the student's permanent record. (5 CCR 11305)

The Superintendent or designee shall monitor the progress of reclassified students to ensure their correct classification and placement. (5 CCR 11304)

The Superintendent or designee shall monitor students for at least four years following their reclassification to ensure the students have not prematurely exited, any academic deficit incurred through participation in the English learner program has been remedied, and the students are meaningfully participating in the standard instructional program compared to students who had never participated in an English learner program. (5 CCR 11304; 20 USC 6841)

Advisory Committees

A school-level English Learner Advisory Committee (ELAC) shall be established when there are more than 20 English learners at the school. Parents/guardians of English learners, elected by parents/guardians of English learners at the school, shall constitute committee membership in at least the same percentage as English learners represent of the total number of students in the school. The school may designate for this purpose an existing school-level advisory committee provided that it meets these criteria for committee membership. (Education Code 52176; 5 CCR 11308)

The ELAC shall be responsible for assisting in the development of a schoolwide needs assessment, recommending ways to make parents/guardians aware of the importance of regular school attendance, and advising the principal and school staff in the development of a detailed master plan for English learners for the individual school and submitting the plan to the Board for consideration for inclusion in the district master plan. (Education Code 52176)

When the district has more than 50 English learners, the Superintendent or designee shall establish a District English Learner Advisory Committee (DELAC), the majority of whose membership shall be composed of parents/guardians of English learners who are not employed by the district. Alternatively, the district may use a subcommittee of an existing districtwide advisory committee on which parents/guardians of English learners have membership in at least the same percentage as English learners represent of the total number of students in the district. (Education Code 52176)

The DELAC shall advise the Board on at least the following tasks: (5 CCR 11308)

1. Developing a district master plan for education programs and services for English learners, taking into consideration the school site plans for English learners
2. Conducting a districtwide needs assessment on a school-by-school basis
3. Establishing a district program, goals, and objectives for programs and services for English learners
4. Developing a plan to ensure compliance with applicable teacher or instructional aide requirements

5. Administering the annual language census
6. Reviewing and commenting on the district's reclassification procedures
7. Reviewing and commenting on the required written parental notifications

In order to assist the advisory committee in carrying out its responsibilities, the Superintendent or designee shall ensure that DELAC and ELAC committee members receive appropriate training and materials. This training shall be planned in full consultation with the members. (5 CCR 11308)

LCAP Advisory Committee

When there are at least 15 percent English learners in the district, with at least 50 students who are English learners, a district-level English learner parent advisory committee shall be established to review and comment on the district's local control and accountability plan (LCAP). Such advisory committee shall provide input regarding the district's existing language acquisition programs and language programs, and, where possible, the establishment of other such programs, in accordance with BP 0460 - Local Control and Accountability Plan. The committee shall be composed of a majority of parents/guardians of English learners. If the DELAC acts as the ELAC pursuant to Education Code 52063 and 52062, the DELAC shall also review and comment on the development or annual update of the LCAP. (Education Code 52062, 52063; 5 CCR 11301, 15495)

The DELAC may also serve as the LCAP English learner advisory committee.

Policy 6175: Migrant Education Program

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board desires to provide a comprehensive program for students who are migratory that attempts to mitigate the impact of educational disruption, cultural and language barriers, social isolation, health-related problems, and other factors that may inhibit their ability to succeed in school. The district shall make use of available funds to provide supplementary services for students who are migratory.

The Superintendent or designee shall cooperate with the regional migrant service center in outreach and identification of eligible students who are migratory and in the provision of migrant education services. The Superintendent or designee shall also coordinate migrant education services with other programs within the district and with other public agencies that serve migrant workers and their families.

The district shall give first priority for services to students who are migratory who are failing, or are most at risk of failing, to meet state academic standards or have dropped out of school. (20 USC 6394)

The district shall provide services to eligible private school students residing within the district on an equitable basis with participating public school students. (20 USC 7881; 34 CFR 200.87)

The Superintendent or designee shall ensure that each student who is migratory is placed at the appropriate grade level upon enrollment and is provided services in accordance with an individual needs assessment and learning plan.

The Superintendent or designee shall annually report to the Board regarding student performance on statewide assessments of core academic subjects and English language development, as appropriate, for students enrolled in the district's migrant education program. In addition, the Superintendent or designee shall periodically report to the Board regarding the alignment of district services with the needs of students as identified in student needs assessments conducted pursuant to Education Code 54443.1. As necessary, the Board shall seek technical assistance from the migrant education regional service center and/or make changes in the services provided by the district in order to improve student achievement.

Policy 6177: Summer Learning Programs

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board recognizes that an extended break from the instructional program may result in significant learning loss, especially among disadvantaged and low-achieving students, and desires to provide opportunities during the summer for students to practice essential skills, make academic progress, and develop social, emotional, and physical needs and interests through hands-on engaging learning experiences.

Summer programs offered by the district shall be aligned with the district's local control and accountability plan (LCAP), other applicable district and school plans, and the educational program provided during the school year. When feasible, summer programs shall blend high-quality academic instruction in core curricular and/or elective subjects with recreation, nutrition programs, social and emotional development, and support services that encourage attendance, student engagement in learning, and student wellness.

Summer School

The Superintendent or designee, with Board approval, may establish summer school day and/or evening classes.

The district's summer school program may be used to provide supplemental instruction to students needing remediation and/or enrichment in core academic subjects.

As appropriate, priority for enrollment in summer school programs shall be given to district students who:

1. Have been retained or are at risk of being retained at their grade level
2. Demonstrate academic deficiencies in core curriculum areas
3. Are in targeted student groups identified in the district's LCAP as needing increased or improved services to succeed in the educational program
4. Are in grades transitional kindergarten (TK)-6 and are required to be offered or provided access to Expanded Learning Opportunities Programs pursuant to Education Code 46120 and BP/AR 5184.2 - Before/After School Programs

The remaining openings shall be offered to other district students on a first-come first-served basis.

Because summer courses cover extensive instructional content in a relatively short time period, students who have more than three excused absences or one unexcused absence may not receive credit for summer session class(es) unless they make-up missed work in accordance with law, Board policy, and administrative regulation.

Sites for summer school programs may be rotated in an effort to make summer school programs more accessible to all students, regardless of residence or regular attendance area, and to accommodate the maintenance needs of district schools.

The Superintendent or designee shall annually report to the Board on summer school enrollment in the current year and previous year for the program as a whole and disaggregated by grade level, school that the students attend during the regular school year, and student population. In addition, the Superintendent or designee may report on the extent to which students successfully achieved the outcomes established for the program.

Additional Summer Learning Opportunities

The Superintendent or designee may collaborate with parents/guardians, city and county agencies, community organizations, child care providers, and/or other interested persons to develop, implement, and build awareness of organized activities that support summer learning.

Strategies to support summer learning may include, but are not limited to:

1. Providing information to students and parents/guardians about summer reading programs scheduled to be conducted by public libraries or community organizations
2. Collaborating with the local parks and recreation agency and/or community organizations to provide day

camps, sports programs, or other opportunities for physical education and activity

3. Encouraging reading in the home, such as providing lists of recommended reading to students and parents/guardians, establishing a target number of books or pages, and providing prizes for achievement of reading goals
 4. Conducting occasional, interactive "fun days" during the summer to provide activities related to art, music, science, technology, mathematics, environmental science, multicultural education, debate, or other subject
-

Policy 6179: Supplemental Instruction

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board recognizes that high-quality supplemental instruction can motivate and support students to attain grade-level academic standards, overcome academic deficiencies, and/or acquire critical skills. The district shall offer programs of direct, systematic, and intensive supplemental instruction to meet student needs. Supplemental instruction shall be offered in accordance with law and may be used to assist the district in meeting its goals for student achievement.

Supplemental instruction may be offered during and outside the regular school day, including during the summer, before school, after school, on Saturday, and/or during intersessions. When supplemental instruction is offered during the regular school day, it shall not supplant the student's instruction in the core curriculum areas or physical education.

As appropriate, supplemental instruction may be provided through a classroom setting, individual or small group instruction, technology-based instruction, and/or an arrangement with a community or other external service provider.

When determined to be necessary by the principal or designee and when written parent/guardian consent is obtained for the student's participation, a student may be required to participate in supplemental instruction outside the regular school day.

Policy 6190: Evaluation Of The Instructional Program

Status: DRAFT

Original Adopted Date: Pending

The Cambrian Governing Board recognizes that it is accountable to students, parents/guardians, and the community for the effectiveness of the district's educational program in meeting district goals for student learning. The Superintendent or designee shall conduct a continual evaluation of the curriculum and the instructional program in order to identify strategies for improving student achievement.

The Superintendent or designee shall provide the Board and the community with regular reports on student achievement. The reports shall include data for each district school and for each numerically significant student group, as defined in Education Code 52052, including, but not limited to, school and significant student group performance on statewide achievement indicators and progress toward goals specified in the district's local control and accountability plan (LCAP).

In addition, the Superintendent or designee shall conduct an evaluation of any new instructional program implemented in the district and shall regularly assess district progress toward increasing student achievement in all subject areas taught in the district. The findings of such evaluations and assessments shall be reported to the Board.

Based on these reports, the Board shall take appropriate actions to maintain the effectiveness of programs and to improve the quality of education provided to district students.

Annual Evaluation of Consolidated Application Programs

The Board and the Superintendent or designee shall annually determine whether the district's categorical programs funded through the state's consolidated application are effective in meeting the needs of the students they are intended to serve. As a basis for this evaluation, the Superintendent or designee shall recommend for Board approval the specific, measurable criteria that shall be used at each school and at the district level. These criteria may include, but are not necessarily limited to, the progress of all students participating in the program and of each numerically significant student group toward goals contained in the district's LCAP, the school's single plan for student achievement, and/or other applicable district or school plans.

Western Association of Schools and Colleges (WASC) Accreditation

The Board believes that accreditation by the Western Association of Schools and Colleges (WASC) can foster excellence and ongoing academic improvement in the district's schools. The results of the accreditation process also may demonstrate to parents/guardians and the community that the schools are meeting their goals and objectives and the WASC criteria for school effectiveness through a viable instructional program.

The Superintendent or designee shall undertake procedures whereby district schools may achieve and maintain full WASC accreditation status. The schools shall conduct a self-study in accordance with WASC requirements, cooperate with the WASC committee during a site visit, and develop and review action plans to increase the effectiveness of the instructional program for students. The Superintendent or designee shall regularly report to the Board on the status of district schools and any WASC recommendations for school improvement.

Not later than 60 days after receiving the results of an inspection of a school by WASC or any other accrediting agency, the Superintendent or designee shall notify parents/guardians in writing of the inspection results and/or shall post the information on the district's or school's web site. (Education Code 35178.4)

If any district school loses its accreditation status, the Board shall give official notice at a regularly scheduled Board meeting. The Superintendent or designee shall provide written notification to each parent/guardian of a student in the school that the school has lost its accreditation status, including the potential consequences of the loss of accreditation status. This notice shall also be posted on the district's web site and the school's web site. (Education Code 35178.4)
